Fire Commissioner: Henry Walton.

Town Engineer: Arthur E. Blackmer.

Chief of Police: Russell P. Dearborn.

Tree Warden: Abbott A. Raymond.

Forest Warden: Ira C. Ward.

Local Moth Superintendent: Abbott A. Raymond.

Building Inspector: Thomas A. Bodell.

SPECIAL TOWN MEETING, FEBRUARY 19, 1934

FRANK C. SMITH, Moderator

Article Two:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of fifty thousand (50,000) dollars to be used in connection with the Civil Works Administration program, if and when extended. Said appropriation to be subject to transfers only, on orders of the Board of Selectmen, to the several Civil Works Administration projects, after the same have been approved.

Article Three:

On motion of J. Frankland Miller, it was unanimously voted: That the Town accept and allow as a Town way Manomet Avenue, from the southerly end of the present laid out way on Manomet Avenue near the foot of Vinal Avenue, southerly, substantially on the line of a private way known as Manomet Avenue, continued through a land development of Camilla G. Whitcomb to a private way known as Grove Street and along said Grove Street to the Old Beach Road, all as laid out by the Board of Selectmen and reported to the Town, and make an appropriation for land or property damages occasioned thereby of the sum of five hundred (500) dollars.

Article Four:

On motion of J. Frankland Miller, it was unanimously voted: That the Town accept and allow as a Town way

Old Beach Road, from the State Highway, northeasterly, to the junction with the end of the easterly side line of Manomet Avenue, as accepted under the preceding article, substantially on the line of present private way known as Old Beach Road, all as laid out by the Board of Selectmen and reported to the Town, and make an appropriation for land or property damages occasioned thereby of the sum of three hundred (300) dollars.

On motion of George B. Howland, Voted: That the sum of \$50,800.00 be raised and assessed upon the inhabitants of the Town of Plymouth and upon the estates of the non-residents to defray the expenses of the Town for the ensuing year.

On motion of William T. Eldridge, Voted: To adjourn.

ANNUAL TOWN MEETING,
MARCH 24, 1934

ALFRED P. RICHARDS, Moderator

Article Three:

On motion of George B. Howland, Voted: That the reports of the several boards of Officers and Committees of the Town be accepted and placed on file.

Article Four:

On motion of George B. Howland, Voted: That the Town authorize the Town Treasurer, with the approval of the Selectmen or a majority thereof, to borrow during the financial year beginning January 1, 1935, in anticipation of the revenue of said year, such sums of money as may be necessary for the current expenses of the Town, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under the authority of this vote shall be paid from the revenue of said financial year.

Article Six:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of eighty-eight hundred and fifty (8,850) dollars in aid of the Plymouth Public Library, including the dog tax for 1933 amounting to \$1,809.59.

Article Seven:

On motion of J. Frankland Miller, Voted: That the

Town appropriate the sum of seven hundred and fifty (750) dollars in aid of the Manomet Public Library.

Article Eight:

On motion of J. Frankland Miller, Voted: That the Town appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture the sum of one Hundred (100) dollars, and that the Town choose a Town Director.

Mr. George B. Howland nominated Mr. Oscar H. Tracy for Town Director and he was elected.

Article Nine:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of five hundred (500) dollars for the purpose of maintaining, during the ensuing year, the mosquito control works as estimated and certified to by the State Reclamation Board.

Article Ten:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of one hundred (100) dollars for Rifle Range expenses.

Article Eleven:

Mr. J. Frankland Miller moved: That the Town appropriate the sum of five hundred and fifty (550) dollars for the observance of Memorial Day and Armistice Day.

Mr. William S. Dupuis moved to amend: That the Town appropriate the sum of four hundred (400) dollars to be used by the Grand Army and their affiliated organizations, for the observance of Memorial Day, and three hundred and fifty (350) dollars for the observance of Armistice Day, and the motion to amend was carried.

Article Twelve:

Mr. J. Frankland Miller moved: That no action be taken under Article 12.

Mr. Morton Collingwood moved to amend by substituting: That the Town appropriate the sum of three hundred and fifty (350) dollars for the observance of July Fourth, said money to be expended by the Board of Selectmen, and the motion was carried.

Article Thirteen:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of one thousand (1,000) dollars to employ a District Nurse.

Article Fourteen:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of seven hundred (700) dollars to defray the expense of maintenance of the Town Wharf, including the pay of caretaker.

Article Fifteen:

To see if the Town will fix the salary of the Chairman of the Board of Public Welfare at one hundred and fifty (150) dollars per annum, and the salary of the other two members of said Board at fifty (50) dollars per annum.

On motion of J. Frankland Miller, Voted: That no action be taken under Article 15.

Article Sixteen:

To see if the Town will authorize the Board of Public Welfare to hire such clerical help as is needed and to fix the salaries of the same.

On motion of J. Frankland Miller, Voted: That no action be taken under Article 16.

Article Seventeen:

To see if the Town will accept sections 21 to 25, inclusive, of Chapter 136 of the General Laws, as amended.

These sections provide for permitting certain sports and games on the Lord's Day, between the hours of 1.30 and 6.30 p. m., for the charging of admission to such games, or the taking up of collections thereat, and the remuneration of contestants. (By Petition.)

On motion of J. Frankland Miller, Voted: That the Town accept sections 21 to 25, inclusive, of Chapter 136 of the General Laws, as amended.

Article Eighteen:

Mr. J. Frankland Miller moved: That the Town take no action under Article 18.

Mr. Morton Collingwood moved to amend by substituting: That the Town appropriate the sum of \$2,000.00 to provide for laying a water pipe from Summer Street across land of Alton A. Burgess for the purpose of supplying water to a proposed development of said Alton A. Burgess along the shores of Little Pond, including authority for the Board of Water Commissioners to execute an Agreement with the owner of the land and his executors and assigns, guaranteeing to the Town interest at the rate of 6% per annum on the amount expended by the Town less such sums as shall be received for water rates from property owners served from said proposed water pipe and until such users pay annually a sum equivalent to or exceeding 6% annual interest on the cost of laying said pipe. Said pipe to be laid under the direction of the Water Commissioners. But the motion was lost.

The motion of Mr. Miller was then put before the meeting and carried.

Article Nineteen:

Mr. J. Frankland Miller moved: That the Town take no action under Article 19.

Mr. Morton Collingwood moved to amend by substituting: That the Town appropriate the sum of \$5,000.00 to acquire the necessary land including the so-called Craig Farm for the purpose of establishing an Airport, providing public funds are obtainable in excess of present definite commitments by the state or federal authorities for the purpose of developing the area so purchased as an Airport. But the motion was lost.

The motion of Mr. Miller was then put before the meeting and carried.

Article Twenty:

On motion of J. Frankland Miller, Voted: That the Town authorize the transfer of the sum of five thousand (5,000) dollars from the Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

On motion of George B. Howland, Voted: That the sum of \$556,046.04 be raised and assessed upon the inhabitants of the Town of Plymouth and upon the estates of the non-residents to defray the expenses of the Town for the ensuing year.

On motion of George B. Howland, Voted: To adjourn.

**SPECIAL TOWN MEETING,
JULY 27, 1934**

FRANK C. SMITH, Moderator

Article Two:

On motion of J. Frankland Miller, Voted: That the Town appropriate the sum of six hundred (600) dollars for the Law Department.

Article Three:

Mr. J. Frankland Miller moved: That the Town appropriate the sum of twenty-two hundred (2,200) dollars for the Police Department.

Mr. Philip Jackson moved: That action under this article be indefinitely postponed, sixty-nine voting in the affirmative and ninety-seven in the negative, the motion was lost.

Mr. Porter T. Harlow moved: To amend Mr. Miller's motion by making the amount three thousand (3,000) dollars instead of twenty-two hundred, but the motion to amend was lost.

Mr. William H. Armstrong moved: To amend Mr. Miller's motion by making the amount twelve hundred (1,200) dollars, fifty-eight voting in the affirmative and one hundred five in the negative, the motion to amend was lost.

The motion of Mr. Miller was then put before the meeting, one hundred and ten voting in the affirmative,

and one hundred forty-nine voting in the negative, the motion was lost.

Article Four:

Mr. J. Frankland Miller moved: That the Town appropriate the sum of five hundred (500) dollars to be used for preparing new quarters for the Inspector of Milk, and moving laboratory equipment from the Town House. Sixty-four voting in the affirmative and one hundred five in the negative, the motion was lost.

Article Five:

Mr. J. Frankland Miller moved: That the Town appropriate the sum of five hundred (500) dollars to be used for repairing the buildings purchased by the Town from the Plymouth Mills, and preparing them for industrial uses, but the motion was lost.

Mr. Alfred P. Richards moved a reconsideration of this article, and the move to reconsider was carried.

The motion of Mr. Miller was then put before the meeting and it was voted: That the Town appropriate the sum of five hundred (500) dollars to be used for repairing the buildings purchased by the Town from the Plymouth Mills, and preparing them for industrial uses.

Article Six:

On motion of J. Frankland Miller, it was unanimously voted: That the Town appropriate the sum of fifty-five hundred (5,500) dollars, to be paid to the State Treasurer as a contribution for riprap breakwater at Manomet Point.

Article Seven:

On motion of J. Frankland Miller, it was unanimously voted: That the Town will indemnify the Commonwealth of Massachusetts and the County of Plymouth against

any and all claims for land, grade and drainage damages which may be caused or result from the laying out, alteration, construction and reconstruction of highway at Manomet Point known as Manomet Point Road, beyond the present laid out portion of said way, and including riprap breakwater to be constructed in connection therewith, and does authorize the Board of Selectmen to sign indemnity agreements therefor in behalf of the Town, or take any other action with respect thereto.

Article Eight:

Mr. J. Frankland Miller moved: That the Town appropriate the sum of twenty-seven hundred (2,700) dollars to be used for repairs to piling at the Town Wharf. One hundred thirty-seven voting in the affirmative and eighteen in the negative, the motion was carried.

Article Nine:

On motion of J. Frankland Miller, Voted: That the Town authorize the Board of Selectmen to sell the schoolhouse and lot on Clifford Road near the Doten Road.

On motion of James A. White, Voted: That the sum of nine thousand three hundred (9,300) dollars voted under the several articles at this meeting, be appropriated from money in the Town Treasury not otherwise appropriated.

On motion of George B. Howland, Voted: To adjourn.

REPORT OF ADVISORY AND FINANCE COMMITTEE

ON THE ARTICLES IN THE WARRANT FOR
SPECIAL TOWN MEETING, MONDAY,
FEBRUARY 19, 1934

The Advisory and Finance Committee has considered the Articles in the Warrant for the Special Town Meeting to be held on Monday, February 19, has heard the Selectmen and others who are interested, and recommends favorable action by the Town on the three Articles.

Article 2. To see if the Town will appropriate a sum not exceeding fifty thousand (50,000) dollars to be used in connection with the Civil Works Administration program, if and when extended. Said appropriation to be subject to transfers only, on orders of the Board of Selectmen, to the several Civil Works Administration projects, after the same have been approved.

The Committee recommends that the Town appropriate the sum of fifty thousand (50,000) dollars to be used for the purpose mentioned in Article 2 and in the manner therein prescribed.

Article 3. To see if the Town will accept and allow as a Town way Manomet Avenue, from the southerly end of the present laid out way on Manomet Avenue, near the foot of Vinal Avenue, southerly, substantially on the line of a private way known as Manomet Avenue, continued through a land development of Miss Camilla G. Whitcomb to a private way known as Grove Street and along said Grove Street to the Old Beach Road, all as laid out by the Board of Selectmen and reported to the

Town, and make an appropriation for land and property damages occasioned thereby, not exceeding five hundred dollars.

The Committee recommends that the Town accept and allow the extension of Manomet Avenue over the line described in Article 3 and appropriate the sum of five hundred (500) dollars for land and property damages thereon.

Article 4. To see if the Town will accept and allow as a Town way Old Beach Road from the State Highway, northeasterly, to the junction with the end of the easterly side line of a proposed extension of Manomet Avenue, substantially on the line of present private way known as Old Beach Road, all as laid out by the Board of Selectmen and reported to the Town, and make an appropriation for land and property damages occasioned thereby, not exceeding three hundred dollars.

The Committee recommends that the Town accept and allow the Old Beach Road from the State Highway to the proposed extension of Manomet Avenue, as described in Article 4, and appropriate the sum of three hundred (300) dollars for land and property damages thereon.

Respectfully submitted,

ADVISORY AND FINANCE COMMITTEE,
TOWN OF PLYMOUTH

J. Frankland Miller, Chairman; John B. Finney, Harold F. Golden, Franklin A. Hebard, Edward W. Jones, Morton Kyle, Walter L. Manter, Amedeo V. Sgarzi, Arthur N. Wood.

Attested: Elmer R. Harlow, Secretary.

REPORT OF ADVISORY AND FINANCE COMMITTEE

ON THE ARTICLES IN THE TOWN WARRANT,
MARCH 24, 1934

Your committee has carefully considered the requests of the several Boards and Officers of the Town and feels that the amounts which are herewith recommended for appropriation are as low as they can consistently be set without impairing efficiency or too seriously curtailing departmental work for the year. Were it not for the fact that we are faced with a very large increase in the tax levy, made inevitable by causes beyond local control, a more generous appropriation might have been recommended in several instances.

Considerable sums have been expended from the Highway, School, Fire, Police, and Cemetery Departments and the Town House Maintenance appropriations, during the months of January and February, for materials, tools, and truck hire, used on Civil Works Administration projects approved and in operation prior to the special town meeting held on February 19th. These amounts are included in the regular budget. The expense was necessary in order to secure for the unemployed the Town's quota of C.W.A. funds.

The Water Department appropriation was increased by \$2,000.00 after it was first set up in the list at \$24,000.00. This money was for extraordinary expense of thawing frozen water pipes in the streets, resulting from the extreme cold in January and February.

Restoration of pay cut has *not* been allowed for in any appropriation.

Article 5. To make the necessary appropriations to defray the expenses of the Town, and for other purposes, and to raise such sums of money as the Town shall deem expedient.

	Recommended

<hr/>		
Total	\$867,772.21	\$796,530.68

Article 6. To take such action as the Town may see fit in aid of the Plymouth Public Library.

The Committee recommends that the Town appropriate the sum of \$8,850.00 in aid of the Plymouth Public Library, including the Dog Tax for 1933 amounting to \$1,809.59.

Article 7. To see if the Town will appropriate a sum

not exceeding seven hundred and fifty (750) dollars in aid of the Manomet Public Library.

The Committee recommends that the Town appropriate the sum of \$750.00 in aid of the Manomet Public Library.

Article 8. To see what amount the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture and choose a Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws, and act thereon.

The Committee recommends that the Town appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture the sum of \$100.00 and that the Town choose a Town Director.

Article 9. To see if the Town will vote to raise and appropriate the sum of five hundred (500) dollars for the purpose of maintaining, during the ensuing year, the mosquito control works as estimated and certified to by the State Reclamation Board in accordance with the provisions of Chapter 112 of the Acts of 1931.

The Committee recommends that the Town appropriate the sum of \$500.00 for the purpose of maintaining, during the ensuing year, the mosquito control works as estimated and certified to by the State Reclamation Board.

Article 10. To see if the Town will appropriate a sum not exceeding one hundred (100) dollars for Rifle Range Expenses.

The Committee recommends that the Town appropriate the sum of \$100.00 for Rifle Range expenses.

Article 11. To see if the Town will appropriate a sum not exceeding seven hundred and fifty (750) dollars

for the observance of Memorial Day and Armistice Day.

The Committee recommends that the Town appropriate the sum of \$550.00 for the observance of Memorial Day and Armistice Day.

Article 12. To see if the Town will appropriate a sum not exceeding three hundred and fifty (350) dollars for the observance of July Fourth, said money to be expended by the Board of Selectmen.

The Committee recommends that no action be taken under Article 12.

Article 13. To see if the Town will appropriate the sum of one thousand (1,000) dollars to employ a District Nurse.

The Committee recommends that the Town appropriate the sum of \$1,000.00 to employ a District Nurse.

Article 14. To see if the Town will appropriate a sum not exceeding seven hundred (700) dollars to defray the expense of maintenance of the Town Wharf, including pay of caretaker.

The Committee recommends that the Town appropriate the sum of \$700.00 to defray the expense of maintenance of the Town Wharf, including pay of caretaker.

Article 15. To see if the Town will fix the salary of the Chairman of the Board of Public Welfare at one hundred and fifty (150) dollars per annum, and the salary of the other two members of said Board at fifty (50) dollars per annum.

The Committee recommends that no action be taken under Article 15.

Article 16. To see if the Town will authorize the

Board of Public Welfare to hire such clerical help as is needed, and to fix the salaries of the same.

The Committee recommends that no action be taken under Article 16.

NOTE. Section 108 of Chapter 41 of the General Laws appears, to the Committee, to give the authority asked for.

Article 17. To see if the Town will accept sections 21 to 25, inclusive, of chapter 136 of the General Laws, as amended.

These sections provide for permitting certain sports and games on the Lord's Day, between the hours of 1.30 and 6.30 p. m., for the charging of admission to such games, or the taking up of collections thereat, and the remuneration of contestants. (By Petition.)

The Committee recommends that the Town accept sections 21 to 25, inclusive, of chapter 136 of the General Laws, as amended.

NOTE. The old Sunday Sports Law, accepted by the Town in May, 1920, did not allow the charging of admission or remuneration of contestants and it fixed the hours from 2 to 6.

Article 18. To see what action the Town will take with reference to appropriating a sum not exceeding two thousand (2,000) dollars to provide for laying a water pipe from Summer Street across land of Alton A. Burgess for the purpose of supplying water to a proposed development of said Alton A. Burgess along the shores of Little Pond, including Authority of the Board of Water Commissioners to execute an agreement to the owner of the land and his executors or administrators, guaranteeing to the Town interest at the rate of 6% per annum on the amount expended by the Town less such sums as shall be received for water rates from property owners served

from said proposed water pipe, and until such users pay annually a sum equivalent to or exceeding 6% annual interest on the cost of laying said water pipe.

(By Petition.)

The Committee recommends that no action be taken under Article 18.

Article 19. To see what action the Town will take regarding the acquiring of land for an airport.

The Committee recommends that no action be taken under Article 19.

NOTE. The article was placed in the warrant to provide opportunity for the purchase of land by the Town. The understanding being that the Federal Government would take over the construction of the airport and pay all labor and material costs. The Committee is now informed that no Government aid is obtainable, as far as cost of material is concerned, and the employment of no extra men would result.

Article 20. To see if the Town will authorize the transfer of a sum not exceeding five thousand (5,000) dollars from the Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

The Committee recommends that the Town authorize the transfer of the sum of \$5,000.00 from the Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

Respectfully submitted,

ADVISORY AND FINANCE COMMITTEE,
TOWN OF PLYMOUTH

J. Frankland Miller, Chairman; Henry W. Barnes, Jr.,
Alton D. Edes, Walter L. Manter, Arthur N. Wood,

REPORT OF ADVISORY AND FINANCE COMMITTEE

ON THE ARTICLES IN THE WARRANT FOR
SPECIAL TOWN MEETING, FRIDAY,
JULY 27, 1934

The Advisory and Finance Committee herewith submits its report to the Town on the articles contained in the warrant for the Special Town Meeting.

Article 2. To see if the Town will appropriate a sum not exceeding six hundred (600) dollars for the Law Department.

The Committee recommends that the Town appropriate the sum of six hundred (600) dollars for the Law Department.

This is one of the Town appropriations that cannot be budgeted. Services for the several departments during the first six months of the year have practically exhausted the small appropriation made in March.

Article 3. To see if the Town will appropriate a sum not exceeding three thousand (3,000) dollars for the Police Department.

The Committee recommends that the Town appropriate the sum of twenty-two hundred (2,200) dollars for the Police Department.

Reasonable use for another car is indicated by the Department's plans, but the Committee, as a whole, is unwilling to recommend the purchase of a third motor vehicle this year.

Article 4. To see if the Town will appropriate a sum not exceeding five hundred (500) dollars to be used for preparing new quarters for the Inspector of Milk and moving laboratory equipment from the Town House.

The Committee recommends that the Town appropriate the sum of five hundred (500) dollars to be used for preparing new quarters for the Inspector of Milk and moving laboratory equipment from the Town House.

Article 5. To see if the Town will appropriate a sum not exceeding thirty-five hundred (3,500) dollars to be used for repairing the buildings purchased by the Town from the Plymouth Mills, and preparing them for industrial uses.

The Committee recommends that the Town appropriate the sum of five hundred (500) dollars to be used for repairing the buildings purchased by the Town from the Plymouth Mills, and preparing them for industrial uses.

Transfer of the sum of \$2,500 from the Reserve Account, previously authorized by the Committee, will be used, and it is believed that the additional appropriation herewith recommended will be sufficient.

Article 6. To see if the Town will appropriate the sum of fifty-five hundred (5,500) dollars, to be paid to the State Treasurer as a contribution (one-half of the estimated cost) for riprap breakwater at Manomet Point.

The Committee recommends that the Town appropriate the sum of fifty-five hundred (5,500) dollars, to be paid to the State Treasurer as a contribution for riprap breakwater at Manomet Point.

Article 7. To see if the Town will indemnify the Commonwealth of Massachusetts and the County of Plymouth against any and all claims for land, grade and drainage damages which may be caused by or result from the laying out, alteration, construction and reconstruc-

tion of highway at Manomet Point, known as Manomet Point Road, beyond the present laid out portion of said way, and including riprap breakwater to be constructed in connection therewith, and will authorize the Board of Selectmen to sign indemnity agreements therefor in behalf of the Town, or take any other action with respect thereto.

The Committee recommends that the indemnity agreements be assumed by the Town and that the Board of Selectmen be authorized to sign same.

Article 8. To see if the Town will appropriate a sum not exceeding twenty-seven hundred (2,700) dollars to be used for repairs to piling at the Town Wharf.

The Committee recommends that the Town appropriate the sum of twenty-seven hundred (2,700) dollars to be used for repairs to piling at the Town Wharf.

The expenditure of this amount appears necessary to put the structure in its original condition. The wharf was built in 1924 on a ten-year bond issue. No previous repairs to the piling have been made.

Article 9. To see if the Town will authorize the Board of Selectmen to sell the school house and lot on Clifford Road near the Doten Road.

The Committee recommends that the Town authorize the Board of Selectmen to sell the schoolhouse and lot on Clifford Road near Doten Road.

Respectfully submitted,

ADVISORY AND FINANCE COMMITTEE,
TOWN OF PLYMOUTH

ANNUAL REPORT
OF THE
BOARD OF SELECTMEN
OF THE
Town of Plymouth

For the Year Ending December 31,
1934

REPORT OF THE BOARD OF SELECTMEN

In the following report the Selectmen wish to express in brief form the work undertaken by them and their department heads during the past year. As can be seen by the reports submitted by the Superintendent of Streets much was accomplished in road and sidewalk work, considering the reduced budget. While a number of our streets and sidewalks require attention, it is not thought advisable to undertake any large construction projects that will entail the spending of a great amount of money, owing to the unsettled conditions. But we hope the Town will see fit to allow sufficient funds for the carrying on of the regular work in that department. The resurfacing of the main highway through the Town is worthy of mention because of its low cost and the many comments of appreciation by our citizens. Much has been accomplished on the outlying roads with the assistance of the Federal Emergency Relief Administration. A great number of miles of graveled roads were widened to permit passing of two vehicles and brush cut on the dangerous corners. This work was badly needed but without question would never have been undertaken by the Town. The Selectmen have in mind several similar projects to be carried out in 1935, if the assistance of the Federal Government is continued. We have inserted an article in the Town Warrant asking for an appropriation of \$30,000 to continue this work, when and if, it is extended by the Federal Government.

The Town of Carver has completed the hard-surfacing of the Federal Furnace Road to the Plymouth Line with the aid of the Department of Public Works and the County of Plymouth, and it is the desire of these departments to continue the work on this road in Plymouth. They have consented to set aside sufficient funds to con-

struct two miles of the road this year. The Department of Public Works will spend \$7,000, the County of Plymouth \$3,500, and we have an article in the Town Warrant for \$3,500 which we hope will be acted on favorably.

The report of the Moth Suppression Department will show that much has been accomplished in the suppression of the Brown-Tail and Gypsy Moths with the assistance of the Federal Government not only in the Town proper but also in the outlying districts.

The work in the Police Department has been conducted in the usual efficient manner. The Chief submitted monthly reports to the Board which are filed in this office.

The expenditures of the Soldiers' Relief Department which is conducted by the Selectmen have been greatly reduced due in part to the assistance of the Federal Emergency Relief Administration, and we believe the applicants are better satisfied to work for this relief than to receive it as a dole.

The repeal of the Eighteenth Amendment has added a great deal to the duties of the Selectmen. Your Board has given freely of their time to the study of the law, and with the cooperation of the license holder, violations have been nil. \$16,081.00 was received for license fees which was a great financial benefit to the Town and should not be overlooked.

The old Plymouth Mills, now the property of the Town, have been repaired and leased to the Plymouth Products Corporation in an effort to furnish employment to some of our citizens. While it takes time to establish a business of this nature, we had hoped to report greater activity. Nevertheless, we are confident that in due time the Town will be amply reimbursed for its investment.

The Selectmen have been faced with many problems during the year, but we believe the most serious is the condition of the Town Wharf. As you are aware by newspaper reports, the entire structure has suffered from

a very severe attack by teredo navales. Many of the piles were found practically cut through at the mud line, and the structure weakened dangerously. Temporary repairs were made allowing operations to continue. A thorough investigation was made by Professor William F. Clapp, Consulting Biologist, Duxbury, Mass., and Fay, Spofford and Thorndike, Consulting Engineers of Boston, and their joint report recommends an entire new structure. The Selectmen are inserting an article in the Warrant asking for sufficient funds to do this work.

Appreciating the serious condition of the breakwater at Long Beach protecting our harbor, the Selectmen wrote the honorable Charles L. Gifford, our representative in Congress, asking that a survey be made by the divisional engineers of the North Atlantic Division. The survey was made and it developed that approximately 5,000 linear feet should be repaired in order to avoid further damage to the stone breakwater now there as well as to the adjacent beach. On February 4, 1935, Mr. Gifford notified us that the District Engineer at Boston had been authorized to advertise the work for performance by contract and that the necessary funds will be provided by the Federal Government when the bids are received.

Frequent visits have been made to the several department headquarters, and all were found to be clean, orderly, and in good repair.

Respectfully submitted,

JAMES A. WHITE,
AMEDEO V. SGARZI,
HERBERT K. BARTLETT,
CHARLES MONING,
WILLIAM H. ARMSTRONG.

REPORT OF SUPERINTENDENT OF STREETS AND SEWERS

To the Honorable Board of Selectmen,

Gentlemen:

I herewith submit a report of the work done in the Street and Sewer Departments from January 1st, 1934 to December 31st, 1934.

SEWERS

The following Sewer Extensions have been put in this year: Prince Street, 56'-8" vitrified pipe and 1-4-8 Y., Main Street Extension, 16'-8" vitrified pipe was laid to replace the old pipe that settled and caused the main to leak.

A large number of manholes have been brought to surface on streets where the mains have given considerable trouble caused by tree roots.

With permission of the Board of Selectmen I purchased a sewer cleaning machine to remove tree roots from our main sewers and have cleaned several hundred feet with very good results. It is probable several extensions will be called for this coming year and several hundred feet more of mains to be cleared of tree roots. I recommend \$5,000.00 to be appropriated to carry out this work.

STREET CLEANING

The usual work of cleaning streets has been carried out this year. One truck with five men have done this work which consisted of clearing of the gutters, catch basins, and brushing up of leaves.

DRAINS

The following drains have been laid this year: Billington Street, 150'-6" vitrified pipe was laid to carry surface water through the land of Mr. Bird's on the south side of the road.

Rocky Hill Road, 30'-12" vitrified pipe was laid to replace broken pipe caused by heavy trucks travelling over this road.

Alden Street, 36'-15" vitrified pipe was laid across the road and entered into the catch basin on the north side to take water away from the corner of Alden and Allerton Street.

The following drains have been repaired and replaced with new pipe:

Jabez Corner, 8'-12" pipe; Water Street at Ripley and Bartletts, 22'-8" pipe; Stephens Street and Sandwich Street, 8'-20" pipe and one new catch basin; Water Street along the shore from Brewster Street to Town Wharf, 12'-6" and 8'-8" pipe.

ASPHALT SIDEWALKS

Approximately 11,560 sq. yds. of the hot mixed surface has been completed this year. The following sidewalks were surfaced: High Street, north side from Russell Street to Market Street, 515 sq. yds.; Allerton Street, from Clifton Street to Vernon Street, 234 sq. yds.; Vernon Street, from Court Street to Highland Place, north side, 817 sq. yds.; Clyfton Street, north side, 98 sq. yds.; Davis Street, north side, from Allerton Street to Highland Place, 413 sq. yds.; Court Street, from South Spooner Street to Cherry Street, west side, several places where surface was broken and dangerous from South Spooner Street into town, 1,013 sq. yds.; South Street, from Town Street to Stafford Street, north side, 885 sq. yds.; Water Street, from Main Street Extension to Leyden Street,

west side, 570 sq. yds; Water Street Extension, from Nelson Street to Railroad Avenue, 1,062 sq. yds.; Alden Street, from Alden Court to Standish Avenue, south side, 442 sq. yds.; Standish Avenue, from Alden Street to Cherry Street, west side, 2,524 sq. yds.; Russell Avenue, south side, 434 sq. yds.; Billington Street, south side, 47 sq. yds.; Oak Street, from Samoset Street to Davis Street, west side, 434 sq. yds.; Sandwich Street, from Market Street to North Green Street, from Stephens Street to Dutton's Garage, 380 sq. yds.; Hall Street, north and south sides, 920 sq. yds.; Clifford Road, from River Street, west on north side, graded and widened present walk for surface this coming year, 712 sq. yds.

GRANOLITHIC WALK AND CURB

Oak Street, on west side, 664 lineal feet of cement curb was laid at a cost of \$531.20. The sidewalk was graded and a hot mixed surface was put on this year.

Prince Street, on north side and south side, 821 lineal feet of cement curb was laid. The sidewalk was graded with gravel and left to settle for a hot mixed surface this coming year.

Sandwich Street, at Dunlap's Filling Station, 25 lineal feet of curb was taken out and replaced with new curb. The old curb was broken and not up to grade, making the sidewalk very dangerous.

A large number of cement slabs have been replaced with new ones that tree roots have broken up and lifted out of place.

SPECIAL BUDGET

Court and Sandwich Streets, a surface coat of K. P. tar and pea-stone was put on these streets. This material was dragged and mixed to take out the depressions, holes and make a non-skid surface. There was approximately 19,500 sq. yds. of this surface covered this year.

Long Pond Road, a surface 2" thick was put on the present gravel surface of this road for a distance of two miles. This surface is called "Mixed in Place," an application of retread tar and gravel, honed and rolled. One mile of this road was covered with Tarvia Emulsion first, to harden the gravel surface before the other application is put on.

Manomet, Samoset, and Strand Avenues, an application of retread tar and gravel was laid on these three avenues. The road surface was broken up by the Water Department laying water pipes through this district and made automobile travel very dangerous.

Darby Road Shoulders, an application of K. P. tar and No. 2 stone was put on the shoulders to take out the crown and dangerous condition on this road. There was approximately one and one-half miles, five foot wide of this surface laid from the Carver and Plymouth line to the Carver Plains.

North Plymouth Fire Station, the entrance to the North Plymouth Fire Station was regraded. The paving blocks were removed and this section was resurfaced with 4" Tarvialithic. The old road bed was cut down approximately 14", regraded and resurfaced with K. P. tar and $\frac{3}{4}$ " stone. This curve was changed because it was in a very dangerous condition. Several accidents have taken place at this point.

HARD-SURFACED STREETS

The following streets were hard-surfaced: Bay View Avenue, from Sandwich Street to end of street, with K. P. tar and pea-stone; Allerton Street, from Russell Street to Vernon Street, resurfaced with retread tar and gravel; Howland Street, from Court Street to Water Street, resurfaced with K. P. tar and $\frac{3}{4}$ " stone; Lothrop Street, from Court Street to Murray Street, resurfaced with retread tar and gravel; Spooner Street (shoulders) from

North Spooner Street to Brook, seal coat of retread tar and gravel; Standish Avenue (shoulders) from Alden Street to Railroad Bridge, surfaced with K. P. tar and pea-stone; Alden Street, from Court Street to Standish Avenue, scarified, brought to grade with gravel and surfaced with $\frac{3}{4}$ " stone and K. P. tar; Water Street Extension (shoulders) from Nelson Street to Water Street, brought to grade with gravel, surfaced with $\frac{3}{4}$ " stone, K. P. tar, seal coat of tar and sand; Town Square, resurfaced with K. P. tar and pea-stone; Royal Street, from Samoset Street to Westwood Road, resurfaced with K. P. tar and pea-stone; Cherry Street Court, scarified and brought to grade with gravel, rolled for surface of tar and stone this coming year; Grey Avenue, from Chestnut Street to Alvin Road, resurfaced with retread tar and gravel; Clifford Road, from Sandwich Road to Rubber Mills, resurfaced with retread tar and gravel; Atlantic Street (shoulders) resurfaced with retread tar and gravel; South Russell Street, from Court Street to Police Station, resurfaced with K. P. tar and pea stone; Water Street, from North Street to Chilton Street, resurfaced with K. P. tar and pea-stone; Doten Road, widened road, cut corner back and brought road up to grade for hard-surface this coming year; Sparrow's Hill, scarified, shaped and brought up to grade with gravel, hard-surfaced with K. P. tar and No. 2 stone from road to Morton Park to top of hill (west); Forest Avenue, resurfaced with K. P. tar and pea-stone from Court Street to Spooner Street; Russell Avenue, widened lower end of street, brought to grade with gravel at a distance of 300 ft., a hard-surface of K. P. tar and stone to be put on this year; Vernon Street, from Court Street to Allerton Street, resurfaced with K. P. tar and pea-stone; Hedge Road, scarified for about two hundred feet, resurfaced with tar and stone where the frost raised and broke up the surface; Spring Street, hard-surfaced with K. P. tar and $\frac{3}{4}$ " stone, graded with gravel, from Summer Street to the Infirmary.

The gravel roads in the outlying districts have been scraped and gravelled in places most needed. A large number of blind curves have been cut back and roads widened to make travel safer.

Lines and grades for street and sewer work have been supplied by our Town Engineer, Arthur E. Blackmer, and records of the same kept on file.

Respectfully submitted,

ELMER C. CHANDLER,
Superintendent of Streets and Sewers.

ANNUAL REPORT
OF THE
TOWN CLERK

Births, Deaths, Marriages

Town of Plymouth

For the Year Ending December 31,

1934

MARRIAGES REGISTERED IN PLYMOUTH IN 1934

- Jan. 1. Leo Ovila Mondeau of Bridgewater and Isolena Rebuttini of Plymouth, married in Plymouth.
- Jan. 1. Tony Thomas and Mary Veronica Silvia, both of Plymouth.
- Jan. 2. Roland Stanley Ginhold and Amelia Emily Petite, both of Plymouth.
- Jan. 5. Frederick Edward Corrow of Kingston and Rose Rossi of Plymouth, married in Plymouth.
- Jan. 8. Howard Seymour Gurney of Whitman and Olive May Pierce of Plymouth, married in Plymouth.
- Jan. 13. Edwin Ellis Loring of Duxbury and Fannie R. Corsini of Plymouth, married in Plymouth.
- Jan. 21. George Edward McMahon and Elizabeth Catharina Christ, both of Plymouth.
- Jan. 27. Earl Holbrook Perry of Avon and Caroline Sylvia Benassi of Plymouth, married in Plymouth.
- Jan. 27. Joseph Lucien Grenier and Bernadette Blanche Parent, both of Pawtucket, R. I., married in Plymouth.
- Feb. 1. William Frederick Rhoades and Marion Bromley, both of Providence, R. I., married in Plymouth.
- Feb. 3. William Franklin Reynolds of Plymouth and Nellie Louise Dill of Bourne, married in Bourne.
- Feb. 5. Antonio M. Andrade of Bourne and Francisca Costa of Carver, married in Plymouth.

- Feb. 5. Arthur Guidetti and Louise Frances Gallerani, both of Plymouth.
- Feb. 7. Henry Joseph Longhi and Hazel Morton Raymond, both of Plymouth.
- Feb. 10. Joseph Henry Riedel and Ellen Teresa Shea, both of Plymouth.
- Feb. 22. Curtis Loring Tibbetts and Evelyn Bernice Anthony, both of Plymouth.
- Feb. 22. Elmer Caranci and Beatrice Gwendolyn Ambrose, both of Plymouth.
- Feb. 24. Charles Briggs Freeman of Duxbury and Lila May Smith of Plymouth, married in Duxbury.
- Mar. 4. Theodore Lee Briggs and Beatrice Alvatine Nickerson, both of Plymouth.
- Mar. 11. Frank Oliver, Jr. and Jennie Corderio, both of Falmouth, married in Plymouth.
- Mar. 16. John Snow Mosher of Carver and Mabel Fayette Lamb of Plymouth, married in East Providence, R. I.
- Mar. 17. George Frederick Sampson of Plymouth and Mary Caroline Foster of Hanover, married in Plymouth.
- Apr. 4. Manuel Silvia and Julia Elizabeth Conboy, both of Plymouth.
- Apr. 7. Andrew Leonard Darsch and Mary Margaret Schira, both of Plymouth.
- Apr. 13. Julio Mendes Teixeira of Plymouth and Margaret Emma Robinson of Boston, married in Providence, R. I.
- Apr. 14. Jose Henriques Nogueira and Mary Albertini, both of Plymouth.

- Apr. 14. William Ruffini of Kingston and Anna Mary Kourtz of Plymouth, married in Plymouth.
- Apr. 14. Arthur V. Showstead and Dorothy A. Weeber, both of Boston, married in Plymouth.
- Apr. 14. Louis Lawrence Palavanchi and Natalie Christina Medara, both of Plymouth.
- Apr. 19. Astorre Joseph Scagliarini and Nellie Rita Boccaci, both of Plymouth.
- Apr. 21. Harry Arrigo Canciani of Boston and Anna Guidoboni of Plymouth, married in Plymouth.
- Apr. 21. Henry Halstead DeMoyne of Bloomfield, N. J. and Evelyn Wallace Robbins of Plymouth, married in Plymouth.
- Apr. 28. Robert John Coughlin of Whitman and Ida Hilive Ohman of Providence, R. I., married in Plymouth.
- Apr. 29. Dennis Francis Sullivan of Plymouth and Agatha Mary Hurden of Duxbury, married in Kingston.
- Apr. 29. Joseph Fortini and Alice Fraccalossi, both of Plymouth.
- Apr. 29. Mauro J. Canevazzi and Albonea Neri, both of Plymouth.
- May 5. Maynard Alton Allen of Framingham and Lillian Marie Roberge of Plymouth, married in Plymouth.
- May 6. Henry Roland Zaniboni and Ethel Dretler, both of Plymouth, married in Duxbury.
- May 11. Howard William Smallwood of Plymouth and Kathrine Louise Kritzmacher of Kingston, married in Plymouth.

May 12. George Leroy Paty and Susan Barnes Hayden, both of Plymouth.

May 12. Lewis Emery Battles of Plymouth and Beulah Townsend of Acushnet, married in Plymouth.

May 13. Harris Allen Morse of Plymouth and Ruth Selma Erickson of Carver, married in Plymouth.

May 14. Joseph Santos Contente and Amelia Gracia, both of Plymouth, married in Taunton.

May 19. Guy Paul Formica of Kingston and Doris Elva Malaguti of Plymouth, married in Kingston.

June 2. George Frederick Kegler and Vanda Mary Breveglieri, both of Plymouth.

June 2. Joseph Cristani and Margaret Elizabeth Basler, both of Plymouth.

June 2. Fred Joseph Piazzi and Ethel Dorothy Alberghini, both of Plymouth.

June 10. Avrelia Michael Montanari of Duxbury and Flora Norma Fortini of Plymouth, married in Plymouth.

June 10. Henry Francis Weldon of Whitman and Lena Lea Montanari of Plymouth, married in Plymouth.

June 11. Frank Leslie Buckingham and Laura Clara Tavernelli, both of Plymouth.

June 15. E. Fiske Mabbett of Plymouth and Carol Vose of Marion, married in Marion.

June 16. Joseph M. Silveira and Helena Miguel, both of Plymouth.

June 16. John F. Iovanna of Quincy and Rose Dorothy Arruda of Plymouth, married in Plymouth.

June 16. Frank Henry Brenner and Josephine Katharine Darsch, both of Plymouth.

- June 17. Joseph William Reardon of Boston and Mildred Ann Goodwin of Plymouth, married in Plymouth.
- June 17. William John Busi of Plymouth and Margaret Louise Valeriani of Kingston, married in Plymouth.
- June 17. Robert Edward Bostwick and Mildred Alice Findlay, both of Quincy, married in Plymouth.
- June 20. Thomas Midgley, 3d of Worthington, Ohio and Marion Darby of Boston, married in Plymouth.
- June 23. Allen Ellis Carlson and Mabel Annie Hutchinson, both of Plymouth.
- June 23. Perley Randall Taylor of Kingston and Mary Rose Souza of Plymouth, married in Plymouth.
- June 25. Harry P. Kennard of Malden and Mary Etta Schreiber of Plymouth, married in Plymouth.
- June 25. Charles Malcolm Collingwood of Hanover and Phyllis Cecelia Morse of Plymouth, married in Plymouth.
- June 27. Frank Anthony Vancini of Plymouth and Isabella Blackler of Boston, married in Boston.
- June 27. Peter P. Gualtieri of Cambridge and Julia A. Northrop of Plymouth, married in Nashua, N. H.
- June 29. Charles McAuley, Jr. of Boston and Catherine A. Riley of Malden, married in Plymouth.
- June 30. James Edward King and Martha Lucy Sommi, both of Plymouth.
- June 30. Albert Clayton Pierce and Dorothy Mae O'Brien, both of Plymouth.
- June 30. Anthony Lewis Pimental and Rose Marie Carreira, both of Plymouth.

- June 30. Attilio Edward Borsari of Wareham and Marjorie Blanche Zaniboni of Plymouth, married in Plymouth.
- July 1. Alcide Ruffini and Esther Margaret Tassinari, both of Plymouth.
- July 1. Edward J. Richter of Kingston and Dorothy Mary Post of Plymouth, married in Kingston.
- July 1. Oscar James Tache of Kingston and Arlene Kenfield Hall of Plymouth, married in Kingston.
- July 7. Philip Albert Woodhead and Virginia Estelle Bailey, both of Springfield, married in Plymouth.
- July 8. Alfred Vincent Fortini and Carmen Mary Bernagozzi, both of Plymouth.
- July 14. Earl Price Midkiff and Melissa Genievive Holt both of Plymouth.
- July 15. Alvin Russell Kendrick of Plymouth and Margaret Anna Gogan of Brockton, married in Brockton.
- July 15. Harold Chester Waitt and Marie Carmen Souza, both of Plymouth.
- July 15. Robert Francis Cook and Matilda Souza, both of Plymouth.
- July 16. William Whiting Harlow and Stella Loring, both of Plymouth.
- July 19. Robert John Gault and Annie Morgan, both of Plymouth.
- July 24. Charles Henry Packard of Plymouth and Evelyn Margaret Ober of Pittsburgh, Pa., married in Central Falls, R. I.
- July 25. Lawrence Santos and Rose Costa, both of Carver, married in Plymouth.

July 28. Antone Richard Pimental and Mary Gloria Motta, both of Plymouth.

Aug. 2. Joseph John Forni and Alberta L. Nickerson, both of Plymouth, married in Middleboro.

Aug. 11. Joseph Elario Borgatti of Plymouth and Rose Nogueira of Kingston, married in Plymouth.

Aug. 13. Frank Joseph Barrett and Irma Alberghini, both of Plymouth.

Aug. 18. Joseph Roderick of Somerville and Jessie Ann Bratti of Plymouth, married in Plymouth.

Aug. 20. George E. Rounds of Plymouth and Clara I. Salvas of Woonsocket, R. I., married in Gorham, N. H.

Aug. 25. Peter Garuti and Doris Pretoni, both of Plymouth.

Aug. 25. Andrew Lee Roulston of Plymouth and Mildred Elsie Cook of Malden, married in Lawrence.

Aug. 25. Louis Gerald Cecco and Emma Rushton Weild, both of Plymouth.

Aug. 25. Harry Francis Hopkins of Middleboro and Isabella Maria Bryant of Plymouth, married in Plymouth.

Aug. 31. Robert Bonner Bowler of Boston and Anna Christina Watson of Plymouth, married in Providence, R. I.

Sept. 1. Antone Carvalho and Mary Evelyn Pimental, both of Plymouth.

Sept. 1. Emilio Maffini and Louise Miriam Magee, both of Plymouth.

Sept. 4. George Edward Owens of Plymouth and Marie Enos of Taunton, married in Plymouth.

- Sept. 8. William Peck Elwell of Arlington and Elizabeth Loder of Brookline, married in Plymouth.
- Sept. 8. Arthur Ellsworth Gulhang and Eugenia Standish Morton, both of Plymouth.
- Sept. 15. Manuel Joseph Cordeiro of Middleboro and Mary Viera of Plymouth, married in Plymouth.
- Sept. 15. Earl Burgess Bourne and Catherine Chandler, both of Newton, married in Plymouth.
- Sept. 22. Albert John Brenner and Thelma Agnes Smith, both of Plymouth.
- Sept. 23. John Paul Canevazzi and Catherine Louise Bagnell, both of Plymouth.
- Sept. 26. Alfred Louis Pimental and Marguerite Josephine Hopkins, both of Plymouth.
- Sept. 29. Edward Raphael Ferreira and Mary Rose Ottino, both of Plymouth.
- Sept. 30. Arthur George Mello and Rose Mary Rezendes, both of Plymouth.
- Oct. 1. Albert Melchor Voght and Beatrice Anne Vaccino, both of Plymouth, married in Pawtucket, R. I.
- Oct. 6. Herbert Francis True of Salisbury and Hazel Alice Clark of Plymouth, married in Plymouth.
- Oct. 6. Joseph Gilli of Kingston and Ada Mary Carafoli of Plymouth, married in Plymouth.
- Oct. 8. Israel Edelstein of Quincy and Edith E. Putnam of Plymouth, married in Brookline.
- Oct. 11. Paul Edward Belluche and Joana Louise Sullivan, both of Plymouth.
- Oct. 11. Emilio Balboni and Teresa Zobbi, both of Plymouth.

- Oct. 11. Allan Thurston Gifford and Harriet Holmes, both of Hardwick, married in Plymouth.
- Oct. 12. Ernest DeFreitas Guimares of Plymouth and Anna Pretti of Middleboro, married in Middleboro.
- Oct. 14. Charles Edward Borghi, of Plymouth and Ines Elisa Loncich of Somerville, married in Medford.

Repairs to Buildings and Grounds	43.49	
Heat and Power at Billington St. Station,	578.43	
Material and Supplies,	318.86	6,655.49
	<hr/>	\$25,157.94

BONDED DEBT

On January 1, 1935, the bonded debt of the Water Department was \$70,000.00. There will be paid during 1935, \$10,000.00 on the principal of this debt and \$2,800.00 interest.

REVENUE

The total revenue of the Department collected during 1934 amounted to \$41,718.41, divided as follows:

Plymouth System	\$39,180.97	
Manomet System	2,537.44	
	<hr/>	\$41,718.41

MANOMET WATER SYSTEM

The Water Commissioners desire at this time to make a final report to the Town regarding the Manomet Water System.

On September 12, 1932, the Town made an appropriation of \$90,000.00 to buy the necessary pipe, hydrants, gates and standpipes to construct a water system at Manomet in substantial accordance with a plan which had been submitted to, and discussed by, the Town at earlier meetings.

On September 23, 1932, the Water Commissioners (as shown in detail in their report for 1932) awarded contracts for 63,050 ft. of pipe, 50 hydrants, 45 10-in. gates, 15 8-in. gates and 70 6-in. gates and other necessary material to build this system.

Fortunately for the Town, the price of material at the time these contracts were let was very low, making it possible to put in more pipe and a greater number of hydrants and gates than was originally planned, the result being that we are able to report that the present Manomet System comprises 64,284 ft. pipe, 44 10-in. gates, 41 8-in. gates, 96 6-in. gates and 72 hydrants.

It may be of interest to record here that the present prices (January 1935) of 10-in., 8-in. and 6-in. pipe are about 66% higher than the prices paid by the Town in September 1932.

At the present writing, there are 111 services and meters on this system and the revenue collected in 1934 was \$2,537.44.

Inquiries from local fire insurance agents having risks in Manomet show that there has been a substantial reduction in insurance rates for all properties adjacent to the new pipe line. In Manomet Village, this reduction was 44% and at White Horse Beach, 20% in the rates prevailing prior to the installation of the water system.

CHILTONVILLE

In our report of a year ago, it was suggested that some 6-in. and 4-in. pipe on Clifford Road be replaced with 8-in. and a new 8-in. line be laid on Sandwich Road, extending from Bramhall's Corner, socalled, to the junction of the Sandwich Road and Clifford Road. Sufficient funds having been allocated for this work by the Selectmen (from a \$50,000.00 appropriation made by the Town), the necessary material was purchased and 17,260 ft. of 8-in pipe was laid and 12 new hydrants set. This work was undertaken as an ERA project, only skilled labor for laying the pipe being furnished by the Water Department.

The completion of this job made a very substantial improvement in fire protection for all properties along the line of pipe renewed.

NELSON STREET

Acting upon the suggestion of the Selectmen, that another ERA project be submitted by the Water Commissioners, it was recommended that 1,100 ft. of 4-in. pipe on Nelson Street be replaced with 8-in. pipe. This project was approved and the work was completed the last week of December 1934. Three new hydrants were set on this street and an old one removed.

DEAD ENDS

One dead end at McKinley Road has been eliminated by extending with about 100 ft. of 6-in. pipe to connect with the 6-in. main on Lothrop Street, greatly improving the circulation.

WATER STREET

On Water Street, 457 ft. of 6-in. pipe was laid (from Brewster Street, northerly, to middle of Mabbett's Mill) to replace old 4-in. pipe. Two new hydrants were set and an old one removed.

MAYFLOWER PLACE

About 175 ft. of old 2-in. pipe on Mayflower Place was replaced with 2½-in. pipe.

RECOMMENDATION

We have already received several applications for extensions of main on the Manomet System. These will be considered by the Water Commissioners during the coming year and it is probable that some extensions will be made as ERA projects.

We recommend an appropriation of \$26,000.00 for maintenance for the year 1935.

There are several sections in the down town distribution system that would be greatly improved by renewal. Since it seems probable that there will be a considerable amount of Welfare labor available during 1935, we recommend an appropriation of \$2,000.00 to purchase pipe and fittings for this purpose.

Respectfully submitted,

WILLIAM R. MORTON, Chairman
JOHN L. MORTON
FRANK D. BARTLETT
RICHARD T. ELDRIDGE
Board of Water Commissioners.

SUMMARY OF STATISTICS

(Published by request of the New England Water Works Association, Plymouth, Mass. Water Works).

Population, 13,175.

Date of construction, 1855.

By whom owned, Town.

Source of supply, Great and Little South Ponds.

Mode of supply, Gravity for low service and pumping for high service.

PUMPING

Builders of pumping machinery: Barr, Worthington and Fairbanks-Morse.

Description of fuel used:

(a) Kind, Bituminous.

(b) Brand of coal, New River.

(c) Average price of coal per gross ton delivered, \$7.84.

(d) Wood, None.

Coal consumed for the year:

Bituminous, 575,445 lbs.

Screenings, None.

Amount of other fuel used, None.

Total equivalent for the year, 575,445 lbs.

Pumpage for the year:

Barr and Worthington, 296,693,000 gallons, with 3% allowance for slip.

Fairbanks-Morse, 13,265,000 gallons.

Average static head, 65 ft.

Average dynamic head, 72 ft.

Number of gallons per lb. coal:

Worthington, 425.

Barr, 523.

Duty of pumps:

Worthington, 26,022.00.

Barr, 31,250,000.

COST OF PUMPING FIGURED ON PUMPING
STATION EXPENSES, VIZ: \$6,655.49

Per million gallons against dynamic head into direct pipe,
\$22.43.

Per million gallons raised one foot high (dynamic), \$0.31.

COST OF PUMPING FIGURED ON TOTAL
MAINTENANCE, VIZ: \$25,157.94.

Per million gallons against dynamic head into direct pipe,
\$84.79.

Per million gallons raised one foot high (dynamic), \$1.18.

STATISTICS ON CONSUMPTION OF WATER
(Exclusive of Manomet System)

Total population: estimated 13,175.

Estimated population on pipe line: 12,125.

Estimated population supplied: 12,125.

Total consumption for the year: 436,096,000 gallons.

Passed through meters: 268,488,000 gallons.

Percentage of consumption metered: 62%.

Average daily consumption: 1,195,000 gallons.

Gallons per day to each inhabitant, 90.

Gallons per day to each tap: 378.

STATISTICS RELATING TO DISTRIBUTION
SYSTEM

(Exclusive of Manomet System)

Kind of pipe used: Cement lined sheet iron and cement
lined cast iron.

Sizes: From 2-inch to 30-inch.

Extended: 3,710 feet.

Discontinued: 15,990 feet.

Total now in use: 63 miles, 3,112 feet.

Cost of repair per mile: \$5.45.

Number of leaks per mile: 0.374.

Small distribution pipe less than 4-inch: 8 miles, 2,464
feet.

Hydrants now in use: 295 public. 72 private.

Stop gates added: 43. Discontinued: 17. Number now in use: 821.

SERVICES

(Exclusive of Manomet System)

Kind of pipe: Lead and cement lined.

Sizes: From one-half to four inches.

Extended: 60 feet. Discontinued: None.

Total now in use: 8 miles, 4,362 feet.

Service taps added: 5. Discontinued: None.

Number now in use: 3,045.

Average length of service: 12 feet.

Average cost of service: \$15,000.

Number meters added: 21.

Number now in use: 2,181.

Percentage of services metered: 71.6%.

Number of motors and elevators added: None.

Number now in use: 1 motor and 1 elevator.

SUPERINTENDENT'S REPORT

To the Board of Water Commissioners :

Gentlemen :

In accordance with the custom of this Department, I submit herewith the annual report of the Superintendent of the Plymouth Water Department for the year ending December 31, 1934.

The principal work of the Department during 1934 was a continuation of the construction of the Manomet Water System and several projects (renewals of old pipe and a few small extensions) which were done under the CWA and ERA, all of which are mentioned in detail in other sections of this year's report.

POND HEIGHTS AND STORAGE

Plate I is the usual chart showing monthly and annual rainfall from 1925 to 1934 inclusive and the corresponding change in pond heights and storage volume for that period.

The high ponds and increase in storage volume from September 1933 to September 1934, I attribute to the high rainfall (60.11 inches) of the year 1933.

The average annual rainfall for Plymouth is 45.88 inches and the 1933 was, thus, 14.23 inches above the average. This resulted in a greater storage volume during 1934 than we have had any year since 1923 and appears to confirm earlier observations "that a period of about one year elapses before the results of a very high or very low rainfall are reflected by corresponding changes in storage volume in Great and Little South Ponds."

CONSUMPTION

Plate II shows the variation in weekly consumption for each week of the year 1934.

Comparison of the average daily consumption for 1934 with that of 1933 shows the following relation:

The average daily consumption on the Low Service system for 1934 was 346,000 gallons, a decrease of 16,000 gallons per day from the 362,000 gallons daily of 1933.

On the Old High Service system, the average daily consumption for 1934 was 813,000 gallons, an *increase* of 80,000 gallons per day over the 733,000 gallons daily of 1933.

On the New High Services system, the average daily for 1934 was 36,000 gallons, an *increase* of 12,000 gallons per day over the 24,000 gallons daily of 1933.

The average daily total consumption for 1934 was 1,195,000 gallons, an *increase* of 76,000 gallons daily over the 1,119,000 gallons daily of 1933.

The abnormal weather conditions for several months of the year 1934 added materially to the cost of operating the Water Department during the year.

The unusually cold weather of January and February was responsible for freezing 91 services and 1,500 ft. main. The approximate cost of thawing these being about \$2,000.00.

The severe weather also caused a material increase in the amount of water used (an increase of ten million gallons for January and February 1934 over the amount used for the corresponding period of 1933.

The extreme drought of July and August also had the effect of increasing the consumption during those two months by sixteen and a half million gallons over the consumption for the same period in 1933.

In other words, the total consumption for the year 1934 was probably increased between twenty-six or twenty-seven million gallons over the normal consumption, due to the combination of cold and drought during the year.

HYDRANTS AND GATES

All hydrants and gates have been inspected in the usual manner during the year 1934 and are in satisfactory condition.

ANALYSIS OF WATER

The usual analysis of samples of water from our source of supply were made during the year by the State Department of Health, statements of which are on file in the Superintendent's office.

Respectfully submitted,

ARTHUR E. BLACKMER,
Superintendent.

HYDRANTS AND GATES

All hydrants and gates have been inspected in the usual manner during the year 1934 and are in satisfactory condition.

ANALYSIS OF WATER

The usual analysis of samples of water from our source of supply were made during the year by the State Department of Health, statements of which are on file in the Superintendent's office.

Assessors.

REPORT OF THE BOARD OF PUBLIC WELFARE

At the end of another year of our Welfare work we again turn back the pages of our records that we might compare the figures of this past year with those of the preceding year. By this method of comparison, both as to the number aided as well as by costs, we seem better able to judge the amount of distress that exists among us and that we are trying our best to relieve.

The appropriation set apart for the relief of Temporary Aid and Mothers Aid; that is, for the general welfare work and the running of our Infirmary, was \$90,000 and it is pleasing to report that the expenditures from this appropriation amount to less than \$85,000, the unused balance of over \$5000 to be turned into the excess account. Last year the expenditure for this class of aid amounted to nearly \$133,000, or \$48,000 more than was spent during this year for the same relief.

The number of cases that were handled by the Department during the year just past are as follows:

Temporary Aid Cases	565
Old Age Assistance Cases	157
Mothers Aid Cases	4
Plymouth Cases Residing in Other Towns	57
	<hr/>
	783

The number of persons aided during the year by the combined assistance was 2250. The peak, or period of greatest assistance, came during the month of December when the total case load was 500, representing nearly 1500 people.

INFIRMARY

Mr. and Mrs. Russell L. Dickson, Superintendent and Matron, have now completed their twenty-eighth year of able management of this department. Although the number of inmates are only ten, their physical condition necessitates much extra care, as for example, one having had both legs removed some time ago.

The gardens this year, as in the past, have been worked by Mr. Dickson with occasional help by welfare labor and they have shown very good results, furnishing the inmates with fresh vegetables for the table during the season. With the assistance of Mrs. Dickson the table has been further supplied with canned vegetables, fruits, grape juice and jellies. There have been 297 qts. of preserves prepared during the past season, not including the grape juice and jellies.

The income from the Julia P. Robinson fund has been used in the same thoughtful manner for the benefit of the inmates.

During the past year the Infirmary buildings have been painted, previous to which it was necessary to make quite extensive repairs. The labor for repair work was furnished by Welfare recipients, the material cost amounting to \$87.30. Five of the rooms have been renovated by replastering, painting and varnishing.

Number of inmates, Jan. 1, 1934	9	
Admitted during year	7	
	—	16
Committed to State Hospital, Taunton	1	
Discharged to private families	4	
Committed to State Institution	1	
	—	6
		—
Number remaining Dec. 31, 1934		10

MOTHERS WITH DEPENDENTS

This Department is now assisting 4 mothers with dependents, representing 10 persons.

As usually stated, this Department, as well as Old Age Assistance, is under the supervision of the State Public Welfare in conjunction with the local Board; one third of the expense is reimbursed to the Town by the State.

OLD AGE ASSISTANCE

“Again we call your attention to the fact that the law distinctly states ‘this is not a pension; but public assistance given to deserving citizens in need of relief and support, seventy years of age and older. It does not relieve the children from supporting their parents if they are able to do so.’ This assistance is a great help to the aged. It relieves them of the mental worries and material cares which cause so much havoc among the old. By allowing them to spend their declining days among their friends in peace and comfort, we lengthen the span of their life among us.”

GENERAL WELFARE OR OUTSIDE AID

This class of assistance called Temporary Aid is rendered to those unemployed as well as those unable to work and not eligible for assistance through other classes of aid.

The expense of this Department has been kept down by the employment given by the Emergency Relief Administration although in many cases it has been neces-

sary to supplement such wages by welfare orders. During the month of December supplementary orders were given to 125 E.R.A. workers and in many instances, persons never before on the Welfare rolls have applied for public aid after receiving the E.R.A. employment. It has been the aim of this Department to find employment for all able-bodied welfare recipients that they may return to the Town their labor in exchange for the food and other necessities they receive. This Department wishes to express its appreciation for the wonderful assistance and co-operation it has received from the other Departments of the Town in the carrying out of this working method. We feel that in most cases this privilege has been greatly appreciated by the recipients and that to a great extent the total cost of temporary aid cannot be rightfully called an expense.

Through the Welfare Department there have been 30 boys enrolled in the Civilian Conservation Corps. Many of these boys were taken from welfare families and the \$25.00 of their monthly wage, pledged to their family, has been a great help in relieving this Department, at the same time giving them the opportunity of being self-supporting.

This Department is now acting as a distributing base of Federal Surplus Commodities for six other nearby towns, previously being the distributing center of twenty Cape towns.

The handling and distribution of these commodities have required a lot of time and work as will be evidenced when the reader considers that a combination order and receipt are required in our distribution of each article; for example, an order is required for every peck of potatoes, pound of butter or lard, can of beef or bag of flour. Following is a partial list of the commodities distributed:

32 cartons Beans	1 ton
4 shipments Butter	14,037 lbs.
Flour	482 bags
40 bags Cereal	1,920 lbs.

Oranges	378 doz.
294 crates Smoked Pork	15 ton
Lard	2 ton
Roast Beef	18,192 cans
200 bags Potatoes	300 bushel
19 bbls. Veal	1½ ton
160 bbls. Cabbages	12 ton
Blankets	168

During December of 1933 and January, February and March of this year, 497 tons of government coal were distributed.

These distributions were made not only to welfare cases but to E.R.A. workers and those recommended by other charitable organizations. These commodities have been given in addition to the regular assistance; that is, in every case, the regular orders have been issued together with the Federal supplies.

This Department has distributed by the same method, all the articles of clothing made by the local E.R.A. Sewing Project. The production from this unit has been a great help and at the same time given employment to about 19 women. This Project has been a great aid to welfare work.

In the handling of the commodities that required refrigeration, the Department has been greatly assisted by Mr. Shipley of the Purice Co. as he has generously given us refrigeration for our butter, lard and pork, without which we would have been unable to have obtained these commodities in such large quantities.

In addition to the Federal commodities we have distributed 2100 qts. of milk that the A. R. Parker Co. so generously donated for relief purposes.

Although during this past year we have shown a substantial saving in welfare expenses, our schedules point toward a much larger case load this coming year. For example, our Temporary Aid case load for November and December of 1933 was around 150, representing approximately 560 persons, while the case load for the same two

months of this year was over 300, representing considerably more than 1000 persons. Last year our burden was lessened to some extent by a number of our cases being given employment on E.R.A. projects. This year, even with the continuance of the E.R.A., everything points toward an expense larger than the preceding years.

The Board recommends the following appropriations:
For Infirmary, Outside Aid and Mothers

with Dependents,	\$110,000.00
For Old Age Assistance,	30,000.00

WILLIAM T. ELDRIDGE,
Chairman,

JAMES RAE,
DR. THOMAS W. LOFT.

PLYMOUTH PUBLIC LIBRARY

To the Citizens of the Town of Plymouth:

In general the work done at the Library and the service rendered by it during the past year has been about the same as in recent years. The report of the Librarian gives the specific details as to the use, circulation of books and expenses. Certain repairs and improvements were deemed necessary and advisable. The large lights in the reading room were old fashioned, out of repair and were using an undue amount of electric current. They were replaced by three other lights which give more light at less cost and add much to the comfort of the readers and to the attractiveness of the library.

The floor under the stacks has been refinished and battleship linoleum laid between the stacks and along the outside. A heavy plate glass top was put on the main desk in the reading room adding much to its appearance and cleanliness. Small minor repairs have been made to keep the building in proper condition.

A gift of five hundred dollars under the will of Miss Lucretia Watson is gratefully acknowledged.

Looking toward the not distant future it is thought advisable to call to the attention of the citizens of the Town the necessity of enlarging the present library building to meet the growing demands upon it. Unless something along this line is done, a very large number of books must be discarded in order to make room for newer ones. Fortunately there is sufficient land in the rear to make an addition possible.

The Directors express their appreciation of the devoted service given by the Librarian and her several assistants, realizing that the value of any library to the community is due in great part to the courtesy, knowledge and helpfulness of those in its immediate charge.

For the Directors,

SUMNER A. CHAPMAN,
President.

REPORT OF THE LIBRARIAN

To the Directors of the Plymouth Public Library:

The annual report of the Library is herewith presented:

This year a change in the time covered by the financial report takes place, and the report as submitted covers the nine months ending December 31, 1934, and causes all future reports, both those of the Treasurer and the Librarian to cover the calendar year.

A change in circulation statistics has also been made. To conform with reports of other libraries, the count of prints circulated has not been included in the total number of volumes circulated, as in past reports, and this should be considered when making comparisons of total circulation. In this and future reports the count of circulation will be divided into fiction and non-fiction. Prints will be recorded, but will be omitted from the total count.

The increased use of library facilities has come to be accepted as normal, and in line with all libraries we reported an unprecedented increase in 1932, and surprisingly exceeded this increase in 1933. With very few exceptions libraries have reported a loss in circulation for 1934, and this library had a decrease of 1874. A slowing down of use is to be expected as industrial activity increases, but it is doubtful if the members of this community availing themselves of greatly-increased use in the past three years, will ever alienate themselves from an institution devoted to their service, and which by their own admission has meant so much to them. This decrease distributed into the number of working days of the year shows a loss of six books daily, and is divided proportionately between the adult and juvenile departments. This loss, of course, makes no appreciable difference in the routine of daily work.

The registration of 615 new borrowers shows a gain over the preceding year, and increases our percentage of registered borrowers of population served, to 39.7 per cent; a proportion we may well be proud of.

The number of books purchased in 1934 exceeded the total of the previous year by 168. Since fewer replacements were made, this means that a greater number of new publications were added.

Extra consideration has been given to the work in the Children's Department this year, and every endeavor has been made to reach an average daily circulation of 150 books. We have not yet reached this goal, but effort is being made to emphasize to the children, the privileges and pleasures which the Library has to offer. Visits to all of the grade schools have been made, and the response to Book Week activities was most satisfactory. The attendance in the Children's Room during Book Week was 1380. Story Hours have been held every two weeks with very good attendance, and 365 children came to the Book Week Story Hour when Miss Margaret Kyle told stories. Mr. Paul W. Kunze, Manager of the Plymouth Theatres, cancelled the Saturday morning performance that there might be no opposition to the success of our Book Week Story Hour, and also made a screen announcement of Book Week, which contributed to its success.

Eighty children joined our Summer Vacation Reading Club. The readers were encouraged to read books of many subjects, and their achievements were recorded on a unique poster called the "Road to Bookland," designed by Daniel Brown, Jr. The enthusiasm sustained throughout the entire vacation period was most gratifying.

Eighteen classes have been held at the Library for the eighth grade pupils of Junior High School. These morning classes of instruction in the use of the Library, held in the Children's Room, have proved their worth, and Miss Mary M. Dolan, Principal of Junior High School, gratefully acknowledges that the pupils are better prepared for the intelligent use of reference tools in their supplementary work and home assignments.

We are very grateful to members of our community who have given books, magazines, and flowers during the year; to the Libraries which have loaned books to us; to the Massachusetts Library Commission for deposits of foreign books; to Mrs. W. E. Randall, of Long Pond for the effective work in her district; and to Mr. Paul Bittinger, of the Old Colony Memorial, for library publicity.

A leave of absence was granted Miss Agnes D. Babcock, for a year's study at Simmons College. Miss Elizabeth Sampson was appointed Children's Librarian for the period of Miss Babcock's leave, and has most acceptably filled this position. Miss Ruth Sears has efficiently served as substitute assistant until Miss Katherine Davis could be available for this work. Otherwise the personnel of our staff has remained the same.

The Librarian wishes to express her deep appreciation of the effective service of the staff throughout the year, and to thank the Directors for their continued cooperation and helpful support.

Respectfully submitted,

CHARLOTTE HASKINS,
Librarian.

STATISTICS

Arranged according to the form recommended by the
American Library Association

ANNUAL REPORT FOR THE YEAR ENDING
DECEMBER 31, 1934

Name of Library: Plymouth Public Library.

Town and State: Plymouth, Massachusetts.

Name of Librarian: Charlotte Haskins.

Population served: 13,042.

Terms of use: Free to permanent and temporary residents. By fee to out-of-town residents.

Total number of agencies:

Central Library.

Long Pond Deposit, 33 School Deposits, three Summer
Camp Deposits, Club Reading Groups.

Number of days open during the year: 302

Hours open each week for lending and reading:

66 (10 mos.) 60 (2 mos.)

Hours of service each week required of staff:

REPORT OF THE PARK COMMISSIONERS

The Park Commissioners herewith submit their report for 1934.

BEACH PARK

Through the cooperation the E.R.A. additional parking space for cars was made, 300 feet by 10 feet, just north of the bathhouse. This new space which was formerly covered with sand and beach grass, will accommodate seventy-five cars.

A breakwater nearly 300 feet long was erected of field stones to protect the land. This construction should keep the heavy seas from filling Eel River with sand during heavy storms.

The receipts at the bathhouse were \$806.77 as compared with \$640.00 in 1933.

INDIAN LANDS

This modern camp is becoming more popular each year. The entire area owned by the Town has been trimmed, cleaned and the dense underbrush removed. The road leading from the camp to the state road has been widened for two cars to pass.

A large raft was added to the equipment and a flag pole erected.

The receipts from auto fees were \$439.15 as compared with \$257.15 in 1933.

TRAINING GREEN

After the severe winter of 1933, the grounds were very irregular, requiring the use of a heavy gasoline roller to put the green back in shape.

BATES PARK

A cement walk was built along the Allerton Street side of the Park. It is the desire of the commission to extend this walk diagonally to Vernon Street, thereby supplanting gravel for cement walks throughout.

BURTON PARK

The necessary trimming of trees was carried out and the usual care was given the grounds.

MORTON PARK

A large amount of work was accomplished and improvements made, all with the idea of keeping Morton Park rustic and in its natural state. Large catch basins and three long cement retaining walls were sunken into the ground in Little Pond Grove to keep the water from gouging into the Grove and washing away the banks in front of the bathhouse. The work of fighting the gypsy moth was continued. Picnic grounds on Hospital Point have been finished.

The cooperation of the E.R.A. made it possible to fill in an old swamp hollow, thereby creating a parking area on Hospital Point. Tables and benches were placed and an ideal picnic ground was made. This site is now one of the finest places in the park for an outing and is being used by organizations throughout the state for annual outings.

Many dangerous corners were removed from the roads by widening these roads so that two autos can pass in safety. The E.R.A. furnished this labor.

All large boulders which had appeared in the roads were dug under and sunk and there are no more obstructions at present.

Bathhouse receipts were \$68.79.

DEPOT PARK

Winter-Killed shrubs were replaced and the usual good care was given the grounds.

SOUTH STREET PLAYGROUNDS

Two double tennis courts were erected from labor funds received of the E.R.A. After completing the courts it was necessary to grade the other grounds surrounding them. The courts are proving very popular and are constantly in use during the tennis season.

NELSON STREET PLAYGROUNDS

A stone retaining wall was built along the northern section of the playground and all the remaining section of the swamp land was filled in and improved.

MUNICIPAL CAMP

The Nelson Street bathhouse was completely renovated inside and changed into recreation rooms for the use of the campers. The inside was attractively decorated and furnished for the convenience, enjoyment and comfort of the tourist.

The camp grounds are now marked in avenues and camps allotted in definite sections. The receipts were larger than ever before, \$923.48 as compared with \$495.00 in 1933.

BREWSTER GARDEN

Blind drains were dug in the banks where springs have been seeping through. All bushes and trees were trimmed and the park appears to be in excellent condition.

STEPHENS FIELD

Along the shore side of the field, a stone retaining wall was erected, running a distance of 300 feet. This section of the field was filled and graded. Shower baths were installed in the locker rooms for the benefit of visiting athletes. Two double tennis courts were made available through labor furnished by the E.R.A. Bathhouse receipts were \$38.81.

VETERANS FIELD

The playground equipment of this ever popular field has been increased by two double tennis courts built under park supervision by E.R.A. employees. These courts are already overcrowded by eager tennis enthusiasts. The same E.R.A. employees filled and graded the entire field, putting it in excellent condition.

Respectfully submitted,
MYRON L. SMITH,
JAMES T. FRAZIER,
ERNEST DUNHAM.

Balance Overdrawn to be Appropriated by Town, \$360.04

To the Inhabitants of the Town of Plymouth:

The Board of Health herewith presents its annual report, together with the reports of its various appointees, for the year ending December 31, 1934:

During the year work has been carried on in its usual way. We have been more fortunate this year in the hospitalization of cases for tuberculosis, there being an average of nine patients a month compared with thirteen for the year 1933. At the present time there are no patients at Lakeville State Sanatorium, which means a great saving. The charge at Lakeville being \$17.50 per week for an adult, and \$7.00 per week for a child, against \$9.10 per week at the Plymouth County Hospital, besides being reimbursed by the State subsidy of \$5.00 per week for most cases, cared for by the Town, at Plymouth County Hospital. Thirty contacts have been sent to Plymouth County Hospital for X-ray and physical examination during the year.

By the report of our Sanitary Inspector, many inspections of various kinds were made, but an added inspection during the Fall was of all cranberry bogs made by Chairman Carr and Mr. Morse, regarding sani-

tary conditions, which in most respects, were found very satisfactory.

Collection of garbage has been carried on in its usual manner, having very few complaints. During bad storms we find the householders most considerate.

The Standish Avenue dump fast becoming unsafe for trucks, not getting ashes and sand for filling as in years past when people burned much more coal, we appealed to the E.R.A. for help, which was granted, and through their project have filled in many places where trucks have been unable to back up with a load. By this project the dump is being made much larger in area.

The contagious disease report shows an epidemic of measles. We feel had all cases been reported, as should have been, by the physician in attendance or parent, the number would have been much higher. Although only one case of diphtheria was reported, we recommend that mothers have their children after the age of six months immunized against this dangerous disease. Don't wait until school age to have it done.

We wish to thank the public for the support we have received the past year, and trust it will continue through the current year.

ANDREW J. CARR, Chairman.

THOMAS F. KILKELLY, D.M.D.,

Secretary.

HERBERT S. MAXWELL.

REPORT OF SANITARY INSPECTOR

To the Board of Health,
Plymouth, Mass.

Gentlemen:

I herewith submit the following report as Sanitary Inspector. Listed below are the number of complaints investigated, also the number of inspections of food stores.

I have, also, had charge of Standish Avenue, Obery, Manomet and Long Pond Dumps, making several trips to each of them.

Placarding for contagious diseases have been done, and fumigating for all rummage sales, besides various other things too numerous to mention.

Complaints are as follows:

Rubbish,	90
Garbage,	67
Miscellaneous,	88
Inspection of Food Stores:	
Grocery, Meat and Fish Markets.	577
Bakeries,	109
Lunch Rooms,	436
Miscellaneous,	132
Violation of keeping products too near sidewalk,	19

During the summer season all camps were inspected, finding conditions very satisfactory.

Respectfully submitted,

EDWARD K. MORSE,
Sanitary Inspector and
Fumigating Officer.

REPORT OF INSPECTOR OF SLAUGHTERING

The following animals were slaughtered and inspected
the past year:

	Cattle	Pigs	Calves
January,	9	10	7
February,	8	5	3
March,	10	7	3
April,	8	5	2
May,	10	6	13
June, *	8	9	4
July,	10	1	6
August,	9	3	5
September,	8	4	3
October,	8	5	7
November,	10	10	3
December,	7	12	2
	<hr/> 105	<hr/> 77	<hr/> 58

One cow condemned as having tuberculosis.

The scales installed for weighing calves last spring
have been of much service.

Respectfully submitted,

ARTHUR L. MORSE,
Inspector of Slaughtering.

REPORT OF INSPECTOR OF MILK

To the Honorable Board of Health:

Gentlemen:

In compliance with Chapter 40, Section 49, General Laws, Mass., Chapter 305, Acts of 1932, and Chapter 376, Acts of 1934, Mass., I herewith submit a report for the year 1934 as Inspector of Milk and Milk Products.

WORK PERFORMED

DANIEL J. SULLIVAN.

REPORT OF INSPECTORS OF PLUMBING

To the Honorable Board of Health
Plymouth, Mass.

Gentlemen:

We herewith submit our report for the year 1934:

Number of Permits,	189
Number of Inspections,	219
Number of New Buildings,	8
Number of Old Buildings,	181

Respectfully submitted,

MICHAEL D. WELSH,
HENRY MENGOLI,
WILLIAM H. ARMSTRONG,
Inspectors of Plumbing.

REPORT OF FIRE COMMISSIONER

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit the report of the Plymouth Fire Department for the year 1934.

After making a careful study of National Statistics, I feel perfectly justifiable in stating that the high standard of efficiency is still being maintained, the total loss for the year being \$24,018.80, the total exposed value being \$216,365.00 which shows a fire loss of 11.11%.

Three hundred and seventy-one calls were answered during the year, an increase of twenty-one over that of last year.

The continued excellent record certainly entitles the department to the loyal support of your Honorable Board and the citizens of the Town.

PERSONNEL

The excellent spirit of enthusiasm and co-operation continues to exist throughout the entire department, this is clearly shown by examination of the attendance at fires, records of which show over 90% attendance of call men and close to 100% of off duty permanent men.

BUILDINGS

Both the Central and North Stations are now in excellent condition. In the Central Station two truses have been installed, removing six posts, thereby making more room.

APPARATUS

The apparatus has been called upon to make a larger number of long runs than heretofore.

Housed At Central Station

Combination A.—500-gallon pump, hose and booster line, in good condition.

Combination D.—350-gallon pump, hose and booster pump, in good condition with exception of booster tank, which should be renewed.

Combination B.—750-gallon pump and hose, in good condition.

Hook and Ladder Truck needs slight repairs.

Dodge Truck—90-gallon water tank, booster pump, hose and 18 chemicals, needs thorough overhauling.

Federal Truck—80-gallon water tank, booster pump, hose and 18 chemicals, eleven years old, and chassis should be replaced this year.

Ford Truck—125-gallon water tank, booster pump, hose and 16 chemicals, which is a second hand chassis equipped by the Volunteer Department and presented to the Department by them.

The Chief's Car is in excellent condition.

North Station

Combination C.—Hose and booster pump, in fair condition.

Horse-drawn Ladder Truck—Unfit for use.

All apparatus with the exception of the Federal and the horse-drawn ladder trucks, will apparently go through the year without extensive repairs unless unforeseen accidents should happen. See previous reports for comments on ladder truck.

FIRE ALARM

The Fire Alarm System outside lines are in good condition, but, as stated last year, they should be extended from Cliff Street to a point beyond Hotel Pilgrim. A special article to provide for such extension is submitted for the warrant of the Annual Town Meeting.

The system has been extended from the corner of Sandwich Street and Obery Street to the County Building, the County paying the expense of material and installation from the street, one box and two remote control stations being installed, the department installing a box at Sandwich and Oberry Street, and running wires from the corner to a point opposite the County Building.

As mentioned in last year's report transformers have been installed and have proven more reliable and economical than were expected.

SPECIAL APPROPRIATION

To see if the town will appropriate the sum of (\$34.00) nine hundred and thirty-four dollars for the construction of the Fire Alarm System from Cliff Street to the junction of Warren Avenue and the State Highway.

ORGANIZATION

Fire Commissioner	Henry Walton
Chief Fire Department	Albert Hiller
Deputy Chief	Clifton Hatton

HENRY WALTON,
Fire Commissioner.

REPORT OF THE BOARD OF CEMETERY COMMISSIONERS

FOR THE YEAR ENDING DECEMBER 31, 1934

The care of the several Cemeteries has been carried on during the past year with no unusual outlays at any of them.

In the early part of the year some general work was done with Federal Aid at Oak Grove and Vine Hills Cemeteries and at Manomet. A section of 2-inch water pipe was laid into the Manomet Cemetery for a distance of about 200 feet, and we expect to lay some pipe each year until the whole of the Cemetery is served.

A new entrance to Burial Hill from South Russell Street has been made possible by the Trustees of the Stickney Fund, who had a flight of stone steps built at the end of the Right of Way which extends from the upper end of the Street to the stone wall on that side of the Hill. They also had the adjacent land graded and seeded down, all of which will make a very attractive entrance.

Some years ago considerable work was done to protect some of the older headstones on Burial Hill by covering the tops and edges with copper to keep out the weather. This method was very satisfactory and the stones so covered will apparently last for many years. There are more that should be taken care of in the same manner, but your Commissioners have delayed this on account of the necessity of keeping all expenses as low as possible.

We feel now that further exposure will seriously damage many of these stones, and are recommending an appropriation this year to continue this work.

Twenty-seven new Trust Funds, totaling \$4,081.52, have been established the past year. A list of all Trust Funds, as well as the financial statements of all receipts and expenditures of the Department, are included in the report of the Town Accountant.

We recommend the following appropriations for 1935:

Oak Grove and Vine Hills Cemeteries,	\$10,000.00
Burial Hill,	1,200.00
Burial Hill, Protecting Headstones,	300.00
Outlying Cemeteries,	800.00

Respectfully submitted,

RICHARD T. ELDRIDGE,
EDWARD R. BELCHER,
ARTHUR E. BLACKMER,

Board of Cemetery Commissioners.

REPORT OF INSPECTOR OF BUILDINGS

To the Honorable Board of Selectmen.

Dear Sirs:—

I herewith submit my annual report on building operations for the year ending December 31, 1934.

Permits	Est. Cost
18 New Dwellings,	\$23,925.00
5 Other Buildings,	3,000.00
10 Garages,	8,450.00
15 Alterations and Additions to Dwellings,	12,100.00
11 Alterations and Additions to Other Buildings,	11,250.00
—	<hr/>
59	\$58,725.00

Respectfully,

THOMAS A. BODELL,
Building Inspector.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

Gentlemen: In compliance with Chapter 98, Section 34, General Laws, Mass., I herewith submit a report for the year 1934 as Sealer of Weights and Measures. Period from January 1st to December 31st, 1934.

OFFICE STANDARDS

Balance—1. Yard Measure—1. Meter—1.
Kilogram—1.

Avoirdupois Weights:

50 lbs.-1, 25-1, 20-1, 10-1, 5-1, 4-1, 2-1, 1-1; 8 oz.-1, 4-1,
2-1, 1-1, $\frac{1}{2}$ -1, $\frac{1}{4}$ -1, $\frac{1}{8}$ -1, $\frac{1}{16}$ -1.

Capacity Measures:

$\frac{1}{2}$ bu.-1, $\frac{1}{4}$ -1, $\frac{1}{8}$ -1, $\frac{1}{16}$ -1, $\frac{1}{32}$ -1; 1 gal.-1, $\frac{1}{2}$ -1, $\frac{1}{4}$ -1,
 $\frac{1}{8}$ -1, $\frac{1}{16}$ -1, $\frac{1}{32}$ -1, $\frac{1}{64}$ -1.

STANDARDS OTHER THAN THOSE FURNISHED BY THE COMMONWEALTH

Apothecary Weights:

1 lb.-1; 6 oz.-1, 2-2, 1-1; 4 drams-1, 2-1, 1-1, $\frac{1}{2}$ -1;
2 scruples-1, 1-1; 10 grain-1, 5-1, 2-1, 1-2, 0.5-1, 0.2-1,
0.1-1.

Metric:

500 grm.-1, 200-1, 100-2, 50-1, 20-1, 10-2, 5-1, 2-2, 1-1;
500 mg.-1, 200-1, 100-2, 50-1, 20-1, 10-2, 5-1, 2-2, 1-1.

Cylindrical Glass Graduates:

32 oz.-1, 16-1, 8-1, 4-1, 2-1; 35 cu. inch-1, 10-1, 3-1.

SEALER'S WORKING EQUIPMENT

Test Balance-1. Test Balance for Apothecary
Weights-1.

Avoirdupois Weights:

50 lbs.-21, 25-2, 20-1, 10-2, 5-2, 2-2, 1-3; 8 oz.-2, 4-2, 2-2,
1-2, $\frac{1}{2}$ -2, $\frac{1}{4}$ -2, $\frac{1}{16}$ -1, $\frac{1}{32}$ -1.

Metric:

500 grams-1, 200-1, 100-2, 50-1, 20-1, 10-2, 5-1, 2-2, 1-1;
500 mg.-1, 200-1, 100-2, 50-1, 20-1, 10-2.

Apothecary:

12 oz.-1, 6-1, 2-2, 1-1; 2 drams-1, 1-1; 2 scruples-1, 1-1;
10 grain-1, 5-1, 2-1, 1-2, 0.5-1, 0.2-2, 0.1-1.

Capacity Measures:

1 gal.-1, $\frac{1}{2}$ -1, $\frac{1}{4}$ -1; 1 pt.-1, $\frac{1}{2}$ -1; 1 gill-1.

Gasoline Test Measures:

10 gal.-1, 5-2, 4-2, 3-2, 2-2, 1-2.

Standard Measuring Flasks, (Metric Units):

500 mil.-1, 250-1, 100-1, 50-1, 25-1.

Pipettes:

6 liq. drams, grad. in minims-1; 10 mil., grad. to $\frac{1}{10}$ th-1;
30 minims, grad. to minim-1.

Tools, Record Books, Etc.:

Yard measure-1; steel tape-1; steel dies-6; lead press-2;
lead seals-200; aluminum seals-200; liquid clamp-1;
paper seals, red-100, green-50; non-seals-200; con-
demning tags-250; drills-2; punches-3; adjusting
lead-1 lb.; levels-2; slicker plate-1; receipt books-6;
sealing record book-1; commodity reweighing record
book-1; coal reweighing books-11; reweighing pads-2;
inspection pads-8; ice weighing kit-1; hooks-6; point
remover-1; dry measure gauge-1; 14-inch stilson
wrench-1, 6-in.-1; hammers-3; screwdrivers-4; flat
wrenches-4; hand drill-1; cutters-2; pliers-2; slide
rule-1; emery stone-1; vises-2; files-2; calipers-1.

Office Equipment:
All steel desk-1; fireproof files-7; Remington Standard
No. 10 Typewriter-1; safe-1; chairs-2.

EXPENDITURES FOR 1934

Appropriation for 1934,		\$2,000.00

Respectfully,

DANIEL J. SULLIVAN.

REPORT OF HARBOR MASTER

To the Honorable Board of Selectmen.

Gentlemen:

I respectfully submit the following report for the year ending December, 1934.

Activities along the Water Front have been about as usual during the summer months.

The channel has been kept clear for the daily trips of the Boston steamer, and others, into, and out from State Wharf.

Through the courtesy of the Plymouth Cordage Co., the Town was furnished with several fine moorings, all complete, with rope, buoys, etc., thus enabling me to find good, safe anchorage for many visiting yachts.

More or less minor repairs have been made on Town Wharf during the early winter, a much needed improvement being the complete replanking of the Fish Pier.

The Lighthouse Board has been notified of the conditions, caused by the long continued ice embargo, affecting our harbor during the winter months, when many moorings and channel markers have been moved, or carried away. All of which will be replaced soon, weather permitting.

The one "Netter" from Boston, who was here last winter, has made his headquarters here again this year, and by paying a small rental for use of wharf for nets, etc., enjoys the same rights and privileges as the local fishermen have.

Respectfully submitted,

ORIN C. BARTLETT,
Harbor Master.

GYPSY AND BROWN TAIL MOTH ACCOUNT

To the Honorable Board of Selectmen, the following report is respectfully submitted.

Appropriation,	\$5,000.00
----------------	------------

 Payments:

 Salaries and Wages—

Superintendent,	\$1,050.00
-----------------	------------

Labor,	2,087.50
--------	----------

\$3,137.50

 Other Expenses—

Trucks,	\$631.38
---------	----------

Insecticides,	296.85
---------------	--------

Hardware and Tools,	75.16
---------------------	-------

½ Cost of New Ford Car,	237.00
-------------------------	--------

Auto and Sprayer Expense,	585.61
---------------------------	--------

Telephone,	34.06
------------	-------

All Other,	2.06
------------	------

1,862.12

Total Payments,	4,999.62
-----------------	----------

Balance to Excess and Deficiency,	\$.38
-----------------------------------	--------

During the past year, the various lines of work in this Department have been carried out as usual with very satisfactory results. No damage to any great extent was done by either Gypsy or Brown-Tail Moths. The usual amount of spraying was done. Anticipating about the same conditions for the coming year, I respectfully recommend an appropriation of \$5,000.00 for labor, supplies and repairs for 1935.

ABBOTT A. RAYMOND,
Moth Superintendent.

TREE WARDEN ACCOUNT

To the Honorable Board of Selectmen, the following report is respectfully submitted,

Appropriation,	\$3,500.00
----------------	------------

Payments:

Salaries and Wages—

Superintendent (Tree

Warden),	\$766.50
----------	----------

Labor,	1,978.35
--------	----------

\$2,744.85

Other Expenses—

Insecticides,	\$224.65
---------------	----------

Hardware and Tools,	38.44
---------------------	-------

Building Repairs,	107.89
-------------------	--------

½ Cost of New Ford Car,	237.00
-------------------------	--------

Auto and Sprayer Expense,	56.11
---------------------------	-------

Desk and Chair,	57.50
-----------------	-------

All Other,	32.63
------------	-------

754.22

Total Payments,	3,499.07
-----------------	----------

Balance to Excess and Deficiency,	\$.93
-----------------------------------	--------

During the past year a great amount of trimming was necessary, as the Winter of 1933 was a tough one for trees. Many trees were killed, and others damaged so that they needed a lot of trimming and feeding. A few new trees were planted where there were vacancies.

This Department carried on a co-operative spray program with the U. S. Department of Agriculture during the past Summer, for the control of the Elm Leaf Beetle.

Last August, representative of the U. S. Laboratory made a survey of the Elms in Plymouth and found only seventy trees with light to medium infestation, and only three trees showing heavy infestation. That is a very good showing, as there are a great many Elms in Plymouth.

Owing to the improved conditions in regard to the Elm Leaf Beetle, which should mean less spraying, I respectfully recommend an appropriation of \$3,000.00 for labor, supplies and material for 1935.

ABBOTT A. RAYMOND,
Tree Warden.

REPORT OF FOREST FIRE WARDEN

To the Honorable Board of Selectmen.

Gentlemen:

I submit the following report for the year 1934.

It was the driest season in several years, very little rain falling during the summer. The fire patrol was employed more than usual, which I believe was largely responsible for there being no disastrous fires during the season. Less than 400 acres were burned over, most of it being scrubby land and comparatively little damage was done. The itemized expenses will be found on another page.

I recommend an appropriation of \$3500.00 for the year 1935.

The following is a list of the Deputy Forest Wardens for the year 1935:

Arthur S. Weston	Philip E. Morris
Arthur W. Weston	Frank C. Thomas
LeBaron R. Briggs, Jr.	Ernest C. Ellis
Elmer E. Raymond	Alfred C. Finney

REPORT OF TOWN FOREST COMMITTEE

To the Honorable Board of Selectmen we respectfully submit the following report:

Reforestation and Improvements—

Appropriation	\$1,000.00
Total Payments	999.61

Balance to Excess and Deficiency \$.39

The Town Forest was started in 1924 and we have up to date set out one hundred and forty-eight thousand trees. About ninety percent being white pine, and the remainder Scotch pine and spruce. Nearly all have done exceptionally well. During the past year several small fires started outside of the boundaries, but fortunately they were extinguished in time to prevent any destruction in the Town Forest. With a little financial assistance from the State we keep a very competent watchman in the fire tower during most of the dangerous period from April 1st to September 1st and longer if conditions make it necessary.

Fire guards were all ploughed and cleaned last year and the roads were kept in a fairly good condition. Considerable weeding and pruning was done and the wood collected in this way was distributed to persons who in our opinion needed it the most.

Your committee was greatly pleased by the favorable and commendatory tribute to its efforts as expressed in a letter from the secretary of Massachusetts Forest and Park Association which we quote in part herewith,—

“The Seventh Annual Conference of Massachusetts Town Forest Committees which was held on the Pembroke and Plymouth Town Forests and the Myles Standish State Forest on October 20 brought together a large

representation of the committees in charge of the town forests in various parts of the State. The visit to the Plymouth Town Forest was a most profitable one. Although your town forest is only ten years old, the work that has been done there is outstanding. Plymouth so far as I know has the only town forest in the state that has a fire observation tower and it is also one of the few places that has made effective fire lines for the protection of the area.

The plantation of 5,000 trees made by the Massachusetts Forest and Park Association at the time the forest was established in 1924 has made a splendid showing and it demonstrates what can be done with the entire area. Your town forest committee has gone steadily forward year by year and has planted 148,000 trees. I am sure that all of the members who attended the conference will agree with me that Plymouth has the beginning of one of the best town forests in the state. Furthermore the town of Plymouth has an excellent opportunity for the enlargement of this area and there are thousands of acres which the town can reclaim from idle and now practically waste land. It is a good commercial forest."

Our principal work for the coming year will consist of weeding, pruning and in addition planting ten thousand more white pine trees. We are making inquiries regarding the possibility of the purchase by the Town of adjacent woodland and it is hoped we will be able to obtain an appropriation for this purpose.

For the ensuing year we ask for an appropriation of \$1200.00 for reforestation and improvements and \$500.00 for purchase of land.

Respectfully submitted,

ADRIAN P. WHITING,
Chairman,
CHARLES T. STEVENS,
ABBOTT A. RAYMOND,
Town Forest Committee.

REPORT OF COMMITTEE ON INLAND FISHERIES

The Committee on Inland Fisheries submit the following: Last year the appropriation was \$250.00. It was expended for the purchase of 800 perch. One hundred seed perch 10 inches long and seven hundred from 5 to 6 inches long were liberated in several of our ponds. Your committee would like an appropriation of \$300.00 this year for the purchase of pickerel.

Respectfully submitted,

W. S. GALE,
GEOFFREY D. PERRIER,
M. D. WELSH.

REPORT OF TOWN ENGINEER

To the Honorable Board of Selectmen.

Gentlemen:

The work of the Town Engineer's Department for the past year has consisted of a survey, plan and cost estimate of a proposed sewer on Billington Street and edge of Town Brook from Standish Worsted Co. to Newfields Street, also a survey and plan for sewer on Tilton Street and Bishop Street, west from Summer Street.

Surveys, plans and descriptions of proposed new street layouts for Union Street, Boutmain Avenue, Cordage Street and Water Street have been made and presented to the Selectmen for approval.

Plans and cost estimates have been prepared for a proposed parking place on School Street and a proposed widening on the easterly side of Water Street, between the State Wharf and the Town Wharf.

Levels have been taken, profiles made and grades established on various curbs and sidewalks constructed during the year.

Respectfully submitted,

ARTHUR E. BLACKMER,
Town Engineer.

REPORT OF COUNTY AID TO AGRICULTURE (Plymouth County Extension Service) PLYMOUTH 1934

In every branch of agriculture the Extension Service endeavors to keep the farmers of the county acquainted with developments in production and marketing, to give specific advice on individual problems and lend aid in cooperative enterprise. In addition to the usual lines of work it has been important this year to keep the farmers of the county informed of their position under the agricultural programs of the federal government.

Marketing programs and new farm credit facilities have been most helpful here. Farmers of the county took advantage of the latter to an amount of nearly \$400,000 during 1934. During the year over 3200 farmers in the county were supplied with information in some form on problems directly affecting their production problems.

It is a responsibility of the Extension Service to make available to women in the home a knowledge of the best current practices relative to keeping the family satisfactorily fed, clothed, and housed, and to aid in adjusting these practices to the family standards and pocket book.

Our home program has reached at least 3000 people either indirectly in solving problems, or through groups organized to study specific points of homemaking. In our major projects alone — Children's Coats, Home Furnishing, Chair Seating, and Parent Education, — fifty-three study groups were formed with over five hundred women enrolled.

In 4-H Club Work, the Extension Service provides for the boys and girls of the county an opportunity for edu-

cational development through study and practice in home economics and agriculture, as well as an opportunity for self improvement. It emphasizes the home and brings club members and parents together in a common interest. It develops cooperation, leadership, self-confidence, ambition, sportsmanship, ability to think, responsibility, and community spirit.

Plymouth citizens, in addition to participating in the many county-wide activities of the Extension Service, have benefited by the following specific activities which were carried on in the town itself.

Well attended meetings of poultrymen and dairymen were held in Plymouth during the year. Advice and cooperation was given the Plymouth Rock Dairymen's Association. Speakers were obtained for their meetings and other assistance supplied. Over fifty personal visits were paid to dairymen, cranberry growers and poultrymen to give advice on specific questions. Soil tests were made for a considerable number of men. Cranberry growers, fruit growers and vegetable gardeners received a special pest control service with regular notices during the growing season, of pest development and control measures. Poultry and dairy farmers received similar material in relation to their particular interests.

Three classes completed in construction of Children's Coats, a large enrollment in a Money Management group, and three discussion groups now forming in Food Buying, show steady growth of interest in home extension projects.

Four-H members enrolled in the food, clothing, canning, poultry, and garden projects during 1934.

The food club in Plymouth center was led very successfully by Eleanor and Louise Coggeshall. Both of these girls have won many honors in 4-H work and have received training in leadership at Camp Gilbert in Amherst.

The clothing clubs in Manomet were led by Miss Eve-

lyn Hayward. The girls had fine clubs and were interested in doing community service work along with their project requirements.

The poultry club members were visited by the county club agent and the garden club members were visited by a committee appointed by the Plymouth Grange.

Rose Ingenito won a prize offered by the Mayflower Pomona Grange to the girl having the best garden in this district.

OSCAR H. TRACY,
Town Director.

PLANNING BOARD REPORT FOR THE YEAR 1934

During the past year the Planning Board has been consulted on several matters pertaining to Town affairs.

CAMP SITE

Early in the year the Board was requested to express an opinion upon the desirability of a proposed Camp Site at, or near, West Pond for the National Guard.

After discussion by the Board, they were agreed that they could not favor the project until some more information, than was available at the time the request was made, was presented. Nothing further was brought before the Board during the year in regard to this project.

TRAFFIC CIRCLE

On March 14, 1934, the Board was visited by three members of the Bourne Planning Board relative to the location of a proposed traffic circle, approved by the State Engineers, at the north end of the new westerly bridge over the Cape Cod Canal.

The Bourne Board objected to the location as laid out and felt that Plymouth would have an interest in the location of this traffic circle and the possible bearing it might have on the location of a by-pass road back of Herring Pond.

An inquiry at the office of the Department of Public Works showed the plans advanced so far that any change was impracticable and the matter was dropped.

PARKING SPACE

The question of additional Parking space in Plymouth has been studied again by the Board.

The principal study was made of the School St. site, which involved a widening of about 60 ft. on the east side and a retaining wall to hold the fill. This would give an area of about 23,000 sq. ft., capable of accommodating about 114 cars. The assessed value of land and buildings that it would be necessary to take is \$14,000.00 and the construction cost approximately \$20,000.00 more.

Two other sites discussed but not seriously considered were:

- (1) an area east of Main st. between Leyden and Middle St.
- (2) an area north of North St. on the Tucker Barnes property.

WATER STREET WIDENING

On November 19, 1934, a joint meeting of the Selectmen, Chamber of Commerce Representatives and Planning Board was held to discuss a plan that was presented for filling on the easterly side of Water Street, beginning at the State Pier and extending northerly approximately 1,025 feet and an average width of approximately 325 feet easterly from the present easterly line of Water Street, affording parking space for about 1,100 cars. It was suggested that an embankment or wall might be built enclosing this area and dredged material for filling the area be obtained by enlarging the existing yacht basin. It was estimated that the approximate cost might be \$45,000.00 and the possibility was suggested that by special legislation, \$35,000.000 might be obtained from the State if the Town would appropriate \$10,000.00 to pay half the estimated cost of dredging the yacht basin.

Instead of the plan as above described, the Planning

Board approved a suggestion proposed by the Selectmen for building a wall parallel to the present easterly line of Water Street 40 feet further east and filling this area. The suggestion being made that this could be carried out as an E.R.A. project.

Respectfully submitted,

ARTHUR E. BLACKMER,
Secretary.

REPORT OF THE E.R.A. ADMINISTRATOR

To the Citizens of Plymouth:—

Due to the amount of benefits that have accrued to the Town from the funds allotted, first known as the Civil Works Administration, and at present under the administration of the Federal Emergency Relief Act, I wish to make the following report:

The C.W.A. was started during the month of November, 1933, and continued until April 1st. At this date it was taken over by the Federal Emergency Relief Administration. This made no appreciable difference in the carrying out of the work but merely tended to put the entire administration of this work on a more efficient basis. The general policy in the choosing of projects has been outlined by the Federal Emergency Relief Administration. 70% of the Federal funds allotted had to be used on projects which the town would not ordinarily spend money on, such as the beautification and extension of the park system; the remaining 30% to be used for extension, modernizations, improvement of roads, public buildings, water and sewerage. The requirements of the Federal Government also made it necessary for the Town to spend a certain amount of money for supplies and trucks, as they only appropriate money for labor.

This work has been greatly appreciated by those who are in need and it is hoped that it may continue until such times as labor conditions improve. At no time has there been a sufficient amount of funds at our disposal to take care of the many appeals of those who are in need. But the local administration, so far as possible, has selected those who seem to be in the direst need.

It is impossible at this time to go into detail as to work that has been done. The following is a brief summary of

the different departments that have been assisted and the amounts of money spent by the Federal Government and the Town.

During the year, an average of 200 men have been employed on these projects with a monthly allotment of \$11,000.00 This has taken a tremendous burden off the Town in direct relief. The total expenditures of Town funds was \$41,711.05, and \$126,299.14 of Federal funds. The departments receiving the aid are as follows: Highway Department, Moth Department, Park Department, Police Department, School Department, and Water Department. Also a project for the extermination of shell-fish enemies was carried on during the fall. The old schoolhouse on Spring Street was completely remodeled and now makes an ideal meeting place for the Veterans of Foreign Wars, thereby eliminating an expense of \$300 rent per year which was being paid by the Town.

Also allow me to express my deep appreciation on behalf of the local officers for the cooperation which has so generously been forthcoming from the Board of Selectmen, the various Town departments, and from the Federal Emergency Relief headquarters in this state, without which the proper administration of this office would have been impossible.

Respectfully submitted,

WILLIAM T. ELDRIDGE.

ANNUAL REPORT
OF THE
TOWN ACCOUNTANT
OF THE
Town of Plymouth

For the Year Ending December 31,
1934

TWENTY-THIRD ANNUAL REPORT OF THE TOWN ACCOUNTANT

For the Year Ending December 31, 1934

Plymouth, Mass., February 26, 1935.

To the Board of Selectmen,

Town of Plymouth.

Gentlemen:

I submit herewith my report of the financial transactions of the Town for the year ending December 31, 1934. These schedules are in the same forms as in previous years and follow in the report in the order as listed below:

Schedule A. Receipts and Payments classified in accordance with the requirements of the Division of Accounts of the State of Massachusetts.

Schedule B. Departmental and Other Expenditures, including local funds expended for C.W.A. and E.R.A. projects. This schedule shows the amounts appropriated at Town Meetings, payments made therefrom, classified as to the purpose of payment, and disposition made in closing the books of any unexpended balances.

Schedule C. Estimated and Actual Cash Receipts, other than from taxes.

Schedule D. Revenue Account for the year 1934. Showing total town meeting appropriations, estimated receipts, and amount raised by taxation.

Schedule E. The list of Unexpended Appropriation Balances which were transferred to the Excess and Deficiency Account at the close of the year.

Schedule F. Balance Sheet, January 1, 1935, showing debit or credit balances of all accounts.

Schedule G. Summary of Outstanding Indebtedness (Bonds) showing the total bonded debt at the beginning of the year, amounts paid thereon during the year, and the requirements for principal and interest during the coming year.

Schedule H. Detailed Statement of Bonded Indebtedness, giving dates of issue, rate of interest, and amount retired annually.

Schedule I. List of Trust Funds, **not including** the January, 1935, dividends.

Schedule J. Borrowing capacity of the Town, calculated as of January 1, 1935.

This is the first time in seventeen years that any considerable falling off has occurred in the Estimated Receipts (Receipts other than from taxes) from the amount used by the Assessors in making the tax rate. It is shown at the bottom of Schedule C, and was caused, principally, by using the amount of actual receipts of the Welfare Department in 1933 as the estimate for 1934. The shrinkage in this item (\$12,503.15) was partly offset by gains in other places, leaving a net deficit in revenue of \$8,084.47. The unused balance of the Public Welfare appropriation turned back into the Excess and Deficiency Account helps materially in offsetting the above in the year's balance sheet.

The large unexpended balance of the appropriation for Town Debt and Interest would appear to be the result of miscalculation but, in reality, the amount appropriated in March 1934 would hardly have been sufficient at ordinary rates for temporary borrowing against town rev-

enues. Peculiar conditions in the banking business resulted in the Town Treasurer being able to secure a rate of less than one per cent during nearly all the year, and saved the Town \$10,000.00.

Through the merging of the Old Colony National Bank with the Plymouth National Bank, the certificate of stock in the former held by the Town for many years and standing at a par value of \$5,000.00 was replaced by a new certificate of stock in the new Plymouth National Bank at a par value of \$2,000.00

Some overdrafts were allowed by votes of the Board of Selectmen but the total amount was small in comparison with the two previous years.

Unpaid bills have been reported by the Park Department amounting to \$336.75.

Actual cash receipts for the last five years, other than for taxes, are as follows:—

For the year 1930,	\$304,594.77
For the year 1931,	269,359.88
For the year 1932,	250,578.13
For the year 1933,	239,475.05
For the year 1934,	237,364.53

Uncollected taxes for the last five years:—

January 1, 1931,	\$126,000.00
January 1, 1932,	140,000.00
January 1, 1933,	170,000.00
January 1, 1934,	202,000.00
January 1, 1935,	196,000.00

Respectfully submitted,

ELMER R. HARLOW,
Town Accountant.

ANNUAL REPORT
OF THE
SCHOOL DEPARTMENT
OF THE
Town of Plymouth

For the Year Ending December 31,

1934

SCHOOL CALENDAR, 1935

Winter Term—14 weeks.

Begins Wednesday, January 2—ends Friday, April 12.

Recess: February 18-22.

Note: February 22 and April 19 are in vacation.

Spring Term—9 weeks.

Begins Monday, April 22—ends Friday, June 21.

Holiday: Thursday, May 30—Memorial Day.

Fall Term—16 weeks.

Begins Wednesday, September 4—ends Friday, December 20.

Holidays:

Friday, October 25—Teachers' Convention.

Monday, November 11—Armistice Day.

Wednesday - Friday, November 27 - 29—Thanksgiving.

NO SCHOOL SIGNALS

2—2 On Fire Alarm Code.

7.05—No school for Junior and Senior High Schools.

Does not apply to freshmen.

8.15—No morning session for the grades I to VI inclusive.

11.15—One session for the grades I to VI, inclusive, schools closing at 12.30.

11.45—No school for the freshmen.

12.45—No afternoon session for grades I to VI. This must not be confused by the freshmen with their no school signal.

SCHOOL COMMITTEE

	Term Expires
Dr. E. Harold Donovan, Chairman,	1936
Fannie T. Rowell, Secretary,	1936
Albert L. Mellor,	1935
Harry W. Burns,	1935
Edward W. Bradford,	1937
Edward A. Buttner,	1937

The regular meetings of the School Committee are held on the first and third Tuesdays of each month.

SUPERINTENDENT OF SCHOOLS

Anson B. Handy

Office hours of the Superintendent of Schools: 8.00 to 9.00 a. m., and 4.00 to 5.00 p. m., every school day, except as special duties may prevent. Special appointments may be made at other times.

OFFICE SECRETARY

Ruth F. Thomas

Office open from 8.00 a. m. to 12 m., and 1.00 to 5.00 p. m. every school day. Saturdays: 9 to 12 a. m.

Summer Schedule: 9 to 12 a. m. and 1 to 4 p. m. Saturdays: 9 to 12 a. m.

SUPERVISOR OF ATTENDANCE

Ralph F. Matinzi

REPORT OF THE SCHOOL COMMITTEE

In preparing the school budget for the past year, every item was reduced as low as possible consistent with efficiency. In fact, items involving cost of materials were estimated too low, as prices under the N.R.A. code rose much higher than was anticipated. The budget will need to be increased for the year 1935, due to three factors.

1. Supplies

In purchasing paper supplies, instead of a uniform price irrespective of quantity as in former years, there is a sliding scale dependent upon quantity. This price varies from seven to even fifteen cents per package, depending on the quantity ordered. It is not often that sufficient quantity is needed to secure the lowest price.

2. Coal Costs

In purchasing coal a decided increase in cost per ton was evident. Instead of competitive prices from local coal companies, all submitted the same price. Soft coal which cost \$5.85 per ton in 1933 advanced to \$7.75 and \$8.00 while hard coal advanced from \$10.65 to \$13.25. As the School Department uses about 900 tons per year, this increase in cost per tons would mean a total increase of about \$2000. However, two factors were used to keep down the cost for the past year: (1) Less coal was put into the schools in the summer and none in December, so that there were about 150 less tons of coal on hand December 31; (2) More soft coal was used to replace hard coal. By the use of vacu-drafts, installed during the past two years, between 250 and 300 tons of soft coal were substituted for hard coal. This has meant a saving of five dollars a ton, or a total saving of \$1250 to \$1500, which has already paid for their installation. The vacu-drafts are also a help to the janitors in securing heat more readily and more uniformly.

3. Salary Costs

The budget provided for the return of the automatic increases to teachers in September. This permitted 27 teachers to receive an increase at the rate of \$90 a year, or a total expense of approximately \$800 in the current year, and \$2500 for the year 1935. Owing to the large number of pupils at the Junior High School it was necessary to have an additional teacher, restoring one of the two positions eliminated two years ago as an economy measure. The total increase in salaries will be approximately \$4000 for 1935.

With the above increases in cost, the budget for 1935 will need to be increased about \$7500.

Repairs Under Civil Works Administration

Under the C.W.A. grants from the Federal Government, much renovation of the interiors of school buildings was accomplished at a cost to the School Department of about \$494 for materials. The labor cost borne by the Federal Government was approximately \$3300. As a result the interiors of the Hedge, Cornish, Knapp, Mt. Pleasant, and Junior High Schools were greatly improved by painting. The roof of the portable building at the Knapp School was strengthened, reshingled, and a new foundation put in. This building gives excellent indoor facilities for recreational activities.

Under the Emergency Relief Administration (E.R.A.), plans were started for developing playground facilities in the rear of the Mt. Pleasant School. This work will be completed during the ensuing year.

E. HAROLD DONOVAN, Chairman,
FANNIE T. ROWELL, Secretary,
EDWARD W. BRADFORD,
EDWARD A. BUTTNER,
HARRY W. BURNS,
School Committee.

In Memoriam

Miss Faith C. Stalker

Instructor In Drawing In

Plymouth Schools

September 1925 — October 1934

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee:

I herewith submit to you my ninth annual report as Superintendent of Plymouth Schools.

The following quotations pertaining to education from national leaders are pertinent to our local situation.

"We have faith in education as the foundation of democratic government . . . Our schools need the appreciation and cooperation of all those who depend upon them for the education of our youth—the state's most valuable asset."—Franklin D. Roosevelt.

"Our nation faces the acute responsibility of providing a right-of-way for the American child . . . There is no safety for our republic without the education of our youth. That is the first charge upon all citizens and local governments . . . The proper care and training of our children is more important than any other process that is carried on by our government."—Herbert Hoover.

"Education for the children of all the people, extending from the primary grades through the university, constitutes America's noblest contribution to civilization."—Calvin Coolidge.

"Whatever may be the exigencies, one thing most not happen. There must be no curtailment of educational facilities . . . It goes without saying that at this critical period it would be a great mistake to weaken the

services of any of our educational institutions. On the other hand, they should be strengthened, no matter what the drain may be.”—Alfred E. Smith.

“We owe it to our country that there should be no impairment of education, sustaining as it does citizenship, bringing as it does service of incalculable worth to the next generation. There should be no curtailment of the schools . . .”—David I. Walsh.

Every one who has studied carefully the local situation, especially at the Senior and Junior High Schools, must realize the very serious curtailment of educational opportunities, a condition which has existed now for six years. If the above national leaders are right, then this problem should receive the immediate attention of the citizens of Plymouth.

While the adverse conditions have been presented in previous reports it seems best to briefly summarize them again.

1. At the Senior High School

While many pupils are making excellent records in high school and in college, showing that their preparation was satisfactory, they are doing this in spite of serious handicaps. There are, however, many of the less gifted pupils who need more individual help but who cannot receive it because of large classes, the shortened recitation periods, and the inability to receive help after school due to the double sessions. Moreover, there is a serious lack of modern educational facilities to give that type of training needed by so many pupils not academically gifted but who would do excellent work in mechanical lines.

The number of pupils in the upper four grades is nearly 700. From all indications of future trends there will be no appreciable decrease. Here, then, are nearly 700 pupils not receiving all the educational advantages

so necessary to prepare them for the life just ahead of them.

In a building fitted for modern needs the same per pupil costs would produce better educational results.

2. At the Junior High School

With practically all classes numbering 40 to 45 pupils and a total enrollment of 487 (Sept., 1934) the teachers are under a serious handicap in securing time for the individual help so necessary. The lack of a gymnasium and assembly hall are exceedingly serious for the development of types of training very worth while. Miss Mary M. Dolan has discussed the difficulties in her annual report found on a later page. **Here there are nearly 500 pupils not receiving the full advantages of a modern system of education.**

3. In the Elementary Grades

While the Individual School is an excellent institution for those pupils whose mental handicap is the most serious and gives an excellent training for two per cent of the elementary children, there is an additional six to eight per cent who are seriously retarded in the grades and become over-age. In mental ability they are between those in the Individual School and those able to do regular grade work. These enter the Junior High School, decidedly handicapped from the academic side. They then go on to the Senior High School, again confronted by a program not adapted to their abilities or needs. A differentiated program should be provided, beginning at about the fifth grade level and broadened and extended through the following grades, involving less of the academic and more of the mechanical types of education. Much of the training would develop into trade or vocational education, the expense of instruction being borne by the Federal and State Governments as is done already in many communities. Such a type of education could be well housed in the present Senior High

School building. Such a revised program as suggested above would directly benefit 100 to 150 pupils and would relieve the Junior and Senior High Schools of one of their serious problems.

Conclusion

The building program as recommended by the School Committee in previous reports would remedy the crowded conditions, give modern facilities and would permit a complete reorganization of the educational program from the fifth to the twelfth grades, affecting directly the training of at least thirteen to fourteen hundred pupils. With the cooperation of the federal and state governments the cost to the local taxpayer of the operation of the program suggested above should be no more than at present and probably less. Undoubtedly there would be a greater educational return on the costs as the boys and girls would receive a more complete education, better adapted to their needs and abilities.

SUB-PRIMARY AT THE HEDGE SCHOOL

For many years the Plymouth Cordage Company maintained a kindergarten which gave excellent training to many children of its employees preliminary to first grade work. This was especially valuable at the Hedge School where approximately ninety-five per cent of the children come from homes of parents whose background of language is chiefly foreign. Since the discontinuance in 1931 the children have lacked this special training. The seriousness of the situation is indicated by the fact that forty-three per cent of the pupils now enrolled have repeated one or more grades, half of the repetitions being in the first grade. The special training given in the sub-primary group to children under the usual school age, should not only reduce the number of repetitions but should give the others a better foundation for their work. Owing to a slightly decreased number of pupils in the first three

grades, it was possible to regroup them and assign the sub-primary training to one of the two regular first grade teachers without involving any additional expense for salaries.

CHANGE AT CEDARVILLE SCHOOL

The bringing into town of the Cedarville pupils attending the Junior and Senior High Schools proved so satisfactory that it was decided advisable to bring pupils in grades five and six to the Manomet School, rather than send them to Bourne. Cedarville pupils thus have the full advantages of attending Plymouth Schools at a decrease in cost to the town.

CHANGES IN PERSONNEL

The year has been marked by the untimely death of Miss Faith C. Stalker, Supervisor of Drawing in the Elementary Grades, but who, temporarily, was instructing in the Junior and Senior High School in place of Miss Virginia Dowling, who was on a leave of absence. Miss Stalker entered upon her work in September but was seized with a serious heart attack which resulted in her death on October 12th. She had given faithful conscientious service for nine years.. Miss Hazel Bates, who had taught the first grade at the Hedge School for several years and who had taken many courses in drawing, was appointed to succeed Miss Stalker.

In September, Miss Susie Macdonald, the school nurse for the past twenty-one years, resigned because of ill health. Miss Macdonald's work has been outstanding for many years. She was unusually efficient in dealing with the under-privileged children, in whom she took a real interest. Her work was taken up by Miss Hilda Swett, a graduate of Brockton City Hospital, who has had ten years of superior experience as a nurse in hospitals and homes.

Miss Elizabeth Hendry, who had given excellent service in the home economics work at the Senior High School for the past two years, resigned in September to go to Medford High School. Her position was filled by Miss Kathleen McNerny, who graduated from Simmons College with an excellent record.

In June, Mrs. Emma H. Anderson resigned as teacher of the Wellingsley School, where she had given excellent service for the past six years. Miss Muriel G. Bradford, a graduate of Wheelock Training School, with one year in private school work and one year as a cadet teacher at the Mt. Pleasant and Cornish Schools, succeeded her.

Miss Frances M. Fowler resigned her fifth grade at the Hedge School because of poor health and was succeeded by Miss Elizabeth Quartz, the cadet teacher at the Hedge School. Miss Fowler was a very valuable teacher.

Three new elementary teachers were appointed. The two cadets are Miss Dolores Guidoboni at the Hedge School and Miss Louise Tosi at the Mt. Pleasant School, both of whom graduated last June from the Bridgewater State Teachers College with records which placed them in the upper half of their class. Miss Dorice A. Knowles, a graduate of the Perry Kindergarten School, was chosen because of her fine record, for the sub-primary position at the Hedge School.

Owing to the large classes at the Junior High School it was decided to return one of the two teachers recently eliminated as an economy measure. Mr. David P. Matthews, who received his master's degree from Boston University in June specializing in English and Vocational Guidance, and who has had excellent experience in private school work, was added to the faculty. He also devotes some time to guidance courses at the Senior High School.

In October Miss S. Claire Downey, after four years of very satisfactory service, resigned as teacher of grade five at the Mt. Pleasant School because of her approaching marriage. Her position was filled temporarily by a substitute and later by the transfer of a teacher.

F.E.R.A. IN EDUCATION

The Federal Government has continued its appropriation to put unemployed, qualified, needy adults at work in certain lines of approved activities. The persons applying for educational work submitted their questionnaire with respect to their financial conditions to the F.E.R.A. headquarters in Boston. There those with the necessary educational qualifications were placed in one of three classes: Class A, persons who met the requirements of the department in regard to need; Class B, those whose need was not so great and who could be employed when Class A in the whole state was exhausted; and Class I, those ineligible because of reasonable financial conditions within the family. Of the local A group, two men were placed in adult recreational activities for twenty-four hours a week, at a salary of eighteen dollars a week. A part of the work was carried on in Harris Hall, through the courtesy and cooperation of the Plymouth Cordage Company, a part at the State Armory, and a part at the Plymouth Boys' Club. Two other men, one a graduate of Bridgewater State Teachers College and the other of Michigan University, were given groups in adult education, consisting of English, Arithmetic and Civics. Some of those who enrolled wished commercial studies but these could not be taught, the requirements being that commercial education may be "provided for unemployed adults" and "in the daytime only." The subjects offered could only be given as an "opportunity class," that is, on an individual basis, rather than in the usual manner of class instruction. Under these restrictions only a small number maintained their interest.

In these days of increased leisure there should be a field for the development of a broad field of adult education. This, however, would require a trained administrator and competent leaders in varied fields, academic and recreational, the latter including music, art, dramatics and games. The expense should not be borne by a real estate tax.

PER PUPIL COSTS

	Year Ending June 31 1931		1933		1934		Year Ending Dec. 31 1934 Budget		1935 Proposed Budget	
	State	Plymouth	State	Plymouth	State	Plymouth	State	Plymouth	State	Plymouth

Total Cost	\$100.76	\$100.81	\$90.40	\$83.96	\$88.21	\$77.83	\$84.00	\$86.83		

† Decrease largely due to adoption of 12 monthly payment plan.

* Increase due to installation of vacu-drafts and materials for C. W. A. projects.

** Above based on 2570 pupils, the average attendance of June and December 1934.
The total school enrollment in December 1934 was 2628.

PER PUPIL COSTS

On the opposite page are given the per pupil costs in Plymouth as compared with those of the state. The costs in the state are those for the year ending June 30, while the costs in Plymouth are given for the year ending June 30 and for the calendar year ending December 31. In June 1931 the local cost of \$100.81 was practically that of the state, but in June 1934 the local cost was \$10.38 less per pupil than the state's. The element of teacher cost was greatly reduced for that year due to the beginning of the twelve monthly payment plan in the previous September. The budget figures for the year ending December 31, 1934, give a more accurate basis of comparison. This shows a decrease of \$4.21 per pupil under the state cost. Based on the 2570 pupils, the average membership for the year, it means a saving of a little over \$10,500 in the local budget as compared with a budget based on the state per pupil cost. The per pupil costs locally will be a little higher in 1935, due to increases in coal costs, supplies, and a slight increase in the total salaries due to annual automatic increases to teachers not on the maximum and to one additional teacher. Similar increased costs will also affect the state costs, so that there will still be a difference of approximately four dollars per pupil in 1935.

The above figures should clearly indicate that the School Department has done its part in reducing local costs to a minimum if the present efficiency is to be maintained.

ELEMENTARY SCHOOL REPORTS

Instead of being separated, the reports of Miss Elizabeth H. Sampson, Principal of Hedge and Mt. Pleasant Schools; Mr. William I. Whitney, Principal of Knapp School; Miss Helen M. Riese, Principal of Cornish and Burton School District; and Miss Elouise Ellis, Principal

of Manomet School, have been combined into a joint report.

A. Grade Enrollments

"The Cornish and Burton School District has an enrollment of 562 pupils. There is an average membership of 40 children in each classroom. The Oak Street and Cold Spring Schools average 32 pupils in a room. As most of the pupils transported in the town are brought to this district, there are about 80 boys and girls who bring a lunch and remain at the Cornish School during the noon hour. These pupils are cared for and have organized play under the direction of a cadet teacher."

At the Mt. Pleasant the fifth grade numbered over fifty as an unusually large number entered from the Wellingsley School. The transfer of a few pupils to the Cornish School was necessary. Another year the sixth grade will be large, but the other grades will be about as usual.

The number of pupils per teacher at the Hedge and Knapp Schools are less than in the above schools, but no further reduction of teachers is desirable, owing to the large number who are handicapped by coming from homes with a foreign language.

B. Pupil Participation

More and more pupils are thinking of their relations with others in terms of good citizenship. Citizenship clubs or organizations function in several schools.

Knapp School—"Taking advantage of conditions as they occur daily in school, the pupils are led to understand behavior problems and take part so that self-reliant, helpful, loyal, and more efficient citizens for tomorrow may be developed. The spirit of cooperation between pupils and teachers is excellent. It forms a working together for a common aim, during which the

pupils are developing more than ever efficient and right practices of thinking, planning, and working."

"The Mt. Pleasant School has organized a school citizenship club and classroom clubs as a major activity. We anticipate success as much time and thought are being given to the work and already good results are evident. Besides this project for the school as a whole, the teachers are planning shorter units of work surrounding the social studies of their individual rooms."

Cornish and Burton District—"By means of class organizations and a group of council members made up of representatives from each grade, we are trying to emphasize the principles of good citizenship, character-training and safety education."

Hedge School—"Special attention is given to the development of desired character traits and, as heretofore, our school citizenship club with the clubs of the individual rooms are the major factors in this very important phase of work."

C. Activity Programs

Many teachers are developing some type of an activity program correlating the various subjects in her grade. One of the outstanding illustrations is the school project carried on in the Hedge School the past year under the direction of Miss Elizabeth H. Sampson, Principal, who describes it as follows:

Hedge School—

"In these days, when children have so many outside interests, school work must be made more and more attractive and presented in such a way that it appeals to them and makes them realize its importance. The teachers at the Hedge School who have devoted much time to the study of child welfare have solved this problem by having each year a cooperative activity — a year's plan based upon some subject of current interest in which

the whole school participates as one body. From thirteen years of experience with this type of teaching we are convinced that it is the best solution. The activity is organized with certain definite objectives in mind:

1. To secure the child's whole-hearted participation in his own education.
2. To provide situations both for group cooperation and for individual freedom.
3. To supply the children with a mastery of the tools of learning.
4. To furnish specific purposes for the formal subjects.
5. To arrange a program that will fix desired knowledge, habits and skills, attitudes and behavior."

"One of the greatest benefits derived from work of this kind is its socializing influence on the school for teachers as well as pupils. The teachers plan the work together, exchanging helpful ideas and materials. The pupils have the privilege of visiting all of the rooms to observe the progress of the unit, and assembly programs are given by the various classes to acquaint all with the work that is being done. All are working together for the good of the whole. Last year's activity, "The Profitable Use of Leisure Time," the outline of which was given in my report for that year, surpassed our expectations in its development and results. When it was completed, the work was displayed in the classrooms to give the parents an opportunity to see what had been accomplished. In connection with this, Humperdinck's Operetta, Hansel and Gretel, was given by the school. The singing of the choruses was the culmination of the work of the Glee Club for the year, the upper grade girls helped to make the costumes, the boys in manual training made the scenery and many of the properties, and the dramatic work offered a fine chance to develop the latent talents of those included in the cast. The activity

received considerable recognition outside of our own system. A part of the exhibit was displayed at the Barnstable County Teachers' Convention and an account of the correlation of health teaching with the project was given. Slides of the work were shown at a conference of graduate students at the State Teachers College in Bridgewater accompanied by a description of the complete activity."

Cornish School—

Another project, which won very favorable comment at the Massachusetts Dental Convention held in Boston last May, was a primary unit of work developed at the Cornish School and supplemented with work from the Hedge and South Street Schools, correlating the dental program with other school subjects.

Manomet School—

"In our teaching matter we are attempting to make the subjects real, and therefore of great interest to each child. In our geographical and historical work we feel that our own town of Plymouth should be emphasized. In the fifth and sixth grades an intensive study of Plymouth was started in October. The pupils in the fifth grade put their factual knowledge into an interesting moving picture of the early Pilgrims. The sixth grade visited all points of interest in Plymouth, ending with a very instructive visit at the Harlow House. There, the early industries were received with such keen interest that some were immediately re-enacted in the school room. Hand woven rugs and bayberry candles were made."

"These pupils then replied to letters sent them from pupils in Plymouth, England, giving them much of the history of Plymouth with illustrative postal cards, a hand woven mat, and Indian arrow-heads. Snapshots were also sent of a Pilgrim village made by the pupils of

both grades, portraying the first Thanksgiving. These were placed inside two portfolios made by boys of the manual training class.

“Through this international intercourse the pupils have become interested in the Junior Red Cross. With this contact with the local chapter and the natural bureau which we are establishing, we hope the pupils will have a wider outlook and more sympathy in national and international activities.”

D. Visits by Parents

The principals report a fine interest on the part of the parents as a result of the parents' night held in November.

Knapp School—“A large majority of the parents came and met the teachers during education week and discussed work of the individual pupils. Such visits are always most beneficial to all and make for a better understanding between the home and school. It is urged that parents visit the schools during the regular sessions and confer with the teachers at any time.”

Cornish District—“Much of the success of our work is dependent upon the cooperation of parents. We do appreciate the excellent spirit shown by such a large number and invite all to visit and talk with us at any time.”

Hedge and Mt. Pleasant Schools—“It was very gratifying to have so many parents attend the evening session to talk over mutual problems. We should be pleased to have them visit during school hours to see the children at work and to become familiar with methods used.”

Manomet School—“Each noon during the cold months hot soup or cocoa is served to each child desiring it. This is a large item, in that the greater percentage of the enrollment of the school stay for lunch. We are

indebted to parents, friends, and members of the Manomet Benefit Society in contributing to this."

E. Instrumental Music.

Instrumental music in the elementary grades has been carried on as formerly with pupils paying the cost of the lessons. The principals report as follows:—"The number would be much larger but for the difficulty pupils find in obtaining instruments."

"Much interest in the instrumental classes and in the glee clubs has been shown in the schools. The classes are smaller this year for financial reasons and much fine talent is being lost. Many more pupils could have the advantage of this training if it could become a part of the regular school work, thus eliminating the cost of weekly lessons, the pupils furnishing their own instruments as they have previously done."

The ability of children to handle musical instruments should be developed as it has so much "carry over" value into later life. The town should assume the small cost of instruction in the near future.

F. Rest Classes

The rest classes at the Cornish, Hedge, Knapp and Manomet Schools continue to show, by gain in weight and by classroom response, that the rest periods are very beneficial to those who attend. The rest and nutrition class at the Cornish School reaches only a small number of pupils. If the nutrition class is to be continued more parents, whose children are underweight, should take advantage of this opportunity. The cost of the food is low and in the case of some families there has been no charge. This has been made possible by the generous contributions of individuals and societies, to whom the school extends its sincere appreciation.

Manomet School—"Perhaps one of our greatest health aids at the school has been the starting of a rest class.

Through the efforts of Dr. Hayden, cots were procured and placed in the rest room where eight underweight children rest for a half hour daily. All of the children have gained in weight, one child having already gained more than the required number of pounds."

G. Geographical Moving Pictures

"Real interest has been shown in a series of geographical moving pictures which have been shown to the fifth and sixth grades once a week. This type of visual education is a great aid in teaching." These pictures have been secured at a low cost from the Division of University Extension, a branch of the State Department of Education.

H. The Work of the Principals

The success of the schools depends to a large extent upon the professional background and leadership of the principals. Plymouth is especially fortunate in having in all the schools principals with a broad educational background, leaders in their profession and teachers willing to follow them.

"Accurate knowledge of a given amount of subject matter is not sufficient preparation for teaching. The teacher must know something of the growth and development of children and be prepared to adapt her procedures to meet their needs mentally, physically and socially."

"The general outline has been intelligently carried on with continued improvement in the technique of teaching through the study of education as given by the best educators in their books and in professional magazines. Upon the teacher depends the success of the school, and it is only those teachers who keep up to the times in educational procedures and whose interests are centered upon the child who can adequately fulfill their mission."

"Steady progress has been carried on during the past

year. The teaching has been carefully planned, systematic, and results carefully checked. Fundamentals in education have been stressed, yet presented according to modern methods, and nowhere neglected. The results of the Standard Achievement Tests the past year show that the teaching has been both conscientious and efficient. Much diagnostic material has been used, the pupil's weakness discovered and remedial lessons given."

"With the close cooperation between parents, teachers, and pupils of the Manomet School we are trying, and I feel succeeding, in keeping up the high standards of the Plymouth Schools. The teachers desire to give definite, lasting help to every child, promoting the good of all."

I. Assemblies

Cornish School—"Due to a lack of room, we are limited in holding many school assemblies. For the past two years it has been necessary to use the assembly room at the Cornish School for a classroom. This does restrict a valuable part of a school program."

Knapp School—"Assemblies are held frequently which the pupils not only plan but conduct. Occasionally a speaker from outside is brought in. Just previous to the Christmas holidays a Cantata, Santa's Substitute by Yale and Hall, was given by the fifth and sixth grades, who had prepared the same as a part of their music work."

Hedge School—A splendid program for the year is planned under pupil leadership, forming a very vital part of the school program.

The Mt. Pleasant School and Manomet School are lacking the advantages of an assembly hall. Entertainments or moving pictures are held in a classroom or in the basement. Many pupils sit two in a seat while others stand.

J. Playground Facilities

At the Knapp and Mt. Pleasant Schools the playground facilities would be greatly improved by building a hard surface while those at the Hedge and Cornish should be enlarged. This work was recommended as an "E.R.A." project but was not acted upon favorably as the material cost far exceeded the labor cost. Work was begun on leveling and improving the playground in the hollow behind the Mt. Pleasant School. This should make a fine playground for the younger children.

CONCLUSION

Economies in supplies, limited facilities and increased teacher loads have made it difficult to maintain high standards. In spite of these handicaps, however, the teachers have responded to the challenge of present day conditions and have secured excellent results. Their spirit has been splendid.

The fine cooperation of the other town departments and of local civic and social agencies has been a real factor in the success, especially in remedying the physical needs of many under-privileged children.

The parents have frequently made valuable suggestions and have worked with the schools for the best interests of the children. Their constructive criticisms and hearty cooperation are appreciated.

Respectfully submitted,

ANSON B. HANDY,

Superintendent of Schools.

SPECIAL DEPARTMENTS

A. Physical Education

Mrs. Beatrice E. Garvin, Elementary Supervisor, reports:

"Physical Education is the teaching division of education that is concerned with big muscle activities, vigorous total body activities. In the elementary grades the program involves material which calls for fundamental movements and many different body coordinations. Selection is made of games which may be used in many types of situations, those related to a testing element, and challenges with individual interests."

"From the first grade through the sixth, each class is divided into squads or teams with a leader for each group. Except for a short winter period activities are based on the playgrounds with skills developing toward soccer, basketball, and baseball. For the playroom program rhythmic work, progressive group games, and stunts are planned. It is essential that children be given a wide range of activities and that they will be so selected that success is within the range of possibility. The supervisor's lesson is the instructional period—when teaching is largely by means of participation but special emphasis is placed upon instruction. The classroom teacher's work follows this with mimeographed plans into the laboratory periods—when emphasis is on participation but at the same time there is some instruction. The child must be given long years of opportunity for the participation in coordinations, if a skilled coordinated body is to be the product. Skills on this level lay the foundation of many of our leisure time activities. We do as recreation that which we do well and from which we get satisfaction. The keynote of the program is "Joy"

for its place is being recognized as essential both to normal growth and to development in the child. Joy is a sign that growth and development are proceeding harmoniously."

"The cooperation with the Health Department toward better Posture has been emphasized this year. Health is a by-product of wholesome living. Physical Education activities are close to the want of the child and hence become the most powerful means of producing desirable behavior changes. After the first posture conference of supervisor and teacher a poster award was made to each grade with the highest percent. Children who seemed farthest from the standard set are listed with possible reasons for this deviation, and every effort will be made to help them toward individual improvement."

"In the High School sports more girls have joined activity groups than ever before. In the spring the most worth-while baseball and track program closed late in June. Hockey led toward ten intra-mural games before the inter-school schedule, with fifty girls receiving credit toward school numerals or letter. The basketball squad of over sixty girls has been divided into three groups, each group having two practise periods a week. Intra-mural games are played in January and a short inter-school schedule in February. Every effort is made to have each girl feel that the activity is for her joy in participation and improvement, rather than for a favored first team group."

Mr. J. H. Smith, Supervisor for Junior and Senior High School, reports:

"The Roger's test as outlined in last year's report was continued and the check up showed decided improvement. Whether this improvement is due to natural causes or the result of follow up work it is impossible to say. The "D" group requiring special attention for flat feet and poor scores in the strength tests were reduced from 24 to 8 boys. The girls in the "D" group were reduced from 38 to 14."

"A closer tie up of this department and the doctor and school nurse is developing this year. Follow up work in malnutrition cases, teeth, eyes, ears, and posture is being carried on.

"Twenty-four pupil leaders have successfully conducted the daily calisthenic period. The training in poise and leadership has been worthwhile to the leaders and beneficial to the other pupils. Two mass assemblies were held out-of-doors with judges selecting the room demonstrating the best results in leadership and execution of exercises. A posture shield is awarded each week to the room showing the best results."

"The second annual Junior High School Field Day was held in June. Every boy and girl participated in some part of the program. Mass athletic contests featured the beginning and end of the field day. Every boy and girl was given a try out for the individual activities."

"At the Senior High School the intra-mural program in soccer, touch football, basketball, track, and baseball continues to develop an enthusiastic following and general participation. An extensive schedule in the above activities was carried on in both Junior and Senior High Schools. The interest and enthusiasm displayed in all intra-mural games is not only a great educational force, but is also a great power for happy and successful living and growth."

B. Drawing

In cooperation with the Massachusetts School of Art the course in drawing will be revised during the ensuing year under the direction of Miss Virginia Dowling, who has been absent for the past year. She will be assisted by Miss Hazel Bates.

Miss Hazel Bates, Elementary Supervisor, reports:

"The art department has this last year suffered a loss in the death of Miss Faith C. Stalker.

The outstanding work of the year was the excellent performance of puppets and marionettes enjoyed by a large number of townspeople as well as Junior High pupils. These productions were under the direction of Miss Stalker.

During the year, the State Supervisor of Art, Mr. C. Edward Newell, visited the schools and held conferences with executives, giving help and constructive criticism to those who desired the same.

The supervision of the elementary grades has included a visit to every classroom once in two weeks to teach methods and principles of art work. Our biggest problem is the meaningful application of these principles by correlation of art work with other subjects. Teachers' meetings have been held at which monthly outlines have been presented and discussed.

The great help given by the Public Library in supplying pictures for art appreciation lessons is much appreciated.

At the Junior High School some classes have but thirty-five minutes a week which includes time necessary to pass to and from classes and to get materials and put them away. Two classes have to be held in the cooking room. This is very inadequate.

Because there is much leisure time for many, it is important that each individual has some means of self expression at his command. A means of self expression brings contentment and growth where too often discontent exists. It is the purpose of the department to help the boys and girls find and develop that means of expression as well as to appreciate and desire to emulate the best that art has to offer. With these facts in mind a plea for provision for more craft work is presented. Through this channel many a child will find the life work for which he is best fitted.

The loyal cooperation and fine spirit of the teachers is

bound to make the art work a source of pleasure to the boys and girls and a lasting influence in their lives.

C. Music

Mrs. Frances H. Buck, Supervisor of Music, reports:

"During the past school year, in addition to the regular classroom instruction, glee clubs and choruses have added considerably to the musical experience of the pupils."

"At the Hedge School, the opera "Hansel and Gretel" was performed by members of the glee club. The splendid cooperation of teachers and pupils resulted in an excellent production that gave genuine pleasure to the hundreds who witnessed the performance."

"At the Junior High School, the seventh and eighth grade glee clubs have been organized as usual. Last May, the seventh grade glee club participated in the Plymouth County Song Conclave at the State Teachers College in Bridgewater. The club, composed of seventy voices, gave an excellent performance."

"At both the Cornish School and Mt. Pleasant School, glee clubs have rehearsed regularly and have provided music for the assemblies throughout the entire school year."

"At the Knapp School, the chorus of grades five and six gave a very fine performance of the operetta, "Santa's Substitute." It was presented for the pleasure of pupils of the school and their parents, as part of the Christmas time celebration."

"The musical development of the South Street School is being accomplished by the singing of many songs—patriotic, folk and community. Under the careful guidance of their teachers, the pupils have acquired an excellent repertoire and the chorus period is always an enjoyable feature."

"At the Senior High School, a newly organized choral club has furnished the musical portion of programs for Armistice, Thanksgiving and Christmas observances. This same group, augmented by many voices, is rehearsing the music of Gilbert and Sullivan's opera, "Pinafore." The production will be given during the latter part of the spring term."

"It has been impossible to meet the pupils' requests for advanced work in Theory and Harmony because of the short school day. There is urgent need of a more extensive music course for the High School, embodying such subjects as Theory, Harmony and Music Appreciation."

"The instrumental and piano classes are being conducted in all of the school districts. Because of economic conditions, it has been impossible for many pupils to continue the class work. Without doubt, provision should be made within the school system for more complete instrumental instruction, as well as orchestral and band supervision."

"The outstanding instrumental achievement of the school year, is the Junior High School Band, organized by the Principal, Miss Mary M. Dolan. About fifty pupils are receiving instruction in brass, woodwind, and percussion instruments, as well as ensemble playing. Several of the larger instruments have been purchased by the school and are assigned to pupils showing musical aptitude. A competent instructor, especially trained in instrumental organization, is directing the work. It is a highly useful and valuable project and deserves the support of the entire community."

D. Summer School

Mrs. Miriam A. Raymond, Principal of the Summer School, reports as follows:

"During the summer of 1934, 133 pupils were enrolled for group and individual instruction in arithmetic,

oral and silent reading, oral and written language, and spelling with the following distribution: Grade four, 20; grade five, 20; grade six, 33; grade seven, 46; and grade eight, 14."

"This year the summer session presented to eighth grade pupils who were deficient in one or two subjects the opportunity to obtain further drill in fundamentals before entering High School. I recommend the continuance of this policy."

"A project called "The Word Shop" was used in the teaching of oral and written English with satisfactory results. In this connection the joining of the summer reading contest sponsored by the Plymouth Public Library was encouraged."

REPORT OF THE INDIVIDUAL SCHOOL

December 14, 1934, marked the twentieth anniversary of the organization of the Individual School.

This adequate, educational provision for the mentally limited has proved a sound public policy in the lessening of social burdens and liabilities to the town.

In retrospect, it seems to me, that our first problem was complete re-adjustment of school work to the nature and needs of individual pupils as to use of text-books, methods, marks, industrial and social endeavor.

Then, too, subject matter had to be made so elastic that its contents or methods of presentation could be altered to meet either individual or small group needs. This flexibility of program allowed for short memory span of attention, slow adjustment of mind to any new phase, individual abilities and differences; for repetition and drill necessary to make mental reaction automatic, and afforded opportunity to supplement to physical activity to aid in the training of mind and body.

Because typical children are creatures of habit, it is obligatory to help establish good habits at the earliest possible age. For all children, the most important habits seem to be those of health and safety.

For various reasons it is not easy to make school training carry over into daily life. We teachers, however, follow up our health activities in as many situations as possible. Besides emphasizing the regulations as to cleanliness, food, rest, work and play, we supervise the daily preparation of a hot drink for the children's lunch at noon. This year we were enabled to do this through financial aid received from the American Legion Auxiliary; the Public Health Committee of the

Woman's Club and the Red Men's Benefit. Consequently on "Health Day," we had a very fine health record. To these organizations, we send our appreciation and gratitude.

Through physical activities, games and exercises, the children receive training in co-ordination of mind and muscle, and sense training through dramatized tests.

We try to give to each child the opportunity to develop some particular aptitude, and to every child the privilege of some supporting usefulness.

Step by step, sometimes very slowly indeed, we move towards the goal of self-support for these children.

Two elements must be recognized as basic to good living:

1. Man should live by his own labor.
2. Every child should be given the ability to support himself in adult life.

Mentally slow children must necessarily hold jobs with repetitive processes or those requiring minimum skill. Therefore, we train these children in alternative skills so that they may move effectively from one kind of work to another.

Manual, industrial or handicraft training is a great factor in special class work because of the close relationship between mental and physical development.

The use of tools and materials secures immediate interest and attention, providing mental and motor activity. This training allows the child to begin at his own level of development and affords, through problems of increasing difficulty, opportunity for growth and self-expression and, because it is concrete, the child may test his own work in terms of utility.

We try to select for each child manual problems involving basic principles the child may engage upon leaving

school. Especially is this necessary for the very slow children because they require the longest time to learn and have the greatest difficulty in being self-supporting. Thus, manual-industrial work for subnormal children is really educational therapy.

The manual work in our school includes problems in wood, block-printing, sewing, paper and cardboard, basketry, crocheting, knitting, darning, weaving, chair-caning, leather-work and the fundamentals of home economics.

Every year we endeavor to introduce some new type of work, since some of our pupils stay in the school a number of years and demand some new skill to retain their interest. This year we are experimenting with hand-painted trays and pottery and have made some very good models.

Mentally limited children usually succeed to some degree in manipulative skills but have few original ideas or initiative. Therefore in our drawing lessons, we find they are pattern re-acting and even when supplied with much illustrative material, they require constant guidance and encouragement, learning largely by imitation and successive experiences.

Musical training in our school consists chiefly of appreciation and rote singing. We endeavor to give them a love for music through physical response, instrumental music and quiet listening.

It is our aim to augment our musical equipment every year. Last year we obtained instruments for a primary orchestra. During the past year, we were fortunate in being able to purchase a radio with money we had earned.

It is generally assumed that children assigned to the Individual School are never returned to the grades. To our many problems is added that of the socially handicapped child. To these maladjusted children, remedial educational treatment is given until their particular bar-

rier to progress has been overcome or removed. When adjustment has been made, we feel that these children are justly entitled to a second chance in the grades.

It was our pleasure, this year, to return three boys to the elementary schools in grades we thought suited to their capabilities.

Respectfully submitted,

MARY L. JACKSON,
Principal.

REPORT OF JUNIOR HIGH SCHOOL

In the Junior High School conditions remain somewhat the same—limited space and increasing enrolment. Classes have increased in size until they are now too large for the most satisfactory work, and it is impossible to give the individual attention which children need. The mentally-retarded groups which should be small have become oversize. Next year a substantial increase in the enrollment is expected. The employment of another teacher may be imperative, although accommodating the extra group will be a problem.

The corridor on the lower floor, where ventilation cannot be properly controlled, serves as an assembly hall. During exercises and chorus work all pupils meet in this hall and must stand during the entire program. Many children find this hard to do, and although the exercises are seldom longer than ten or fifteen minutes, illness and fainting are common occurrences. When there are moving picture programs, the upper hall may be used and the children may sit on the oily floor with a newspaper to protect their clothing! The fire laws prohibit the use of chairs. Assemblies are a vital part of the school work and the need for a hall in this school is a serious one. Dramatic clubs, the school chorus, the glee clubs, the orchestra, and the band have not adequate space now but would be well provided for in an auditorium.

On stormy days, during very cold weather, and when the grounds are muddy, physical training classes must be conducted indoors. Since there is no other space the corridors must be used. This is at best a makeshift since there is no gymnasium equipment and because of the proximity to classrooms. Sometimes a room is available

for a group but no proper physical training work can be done in a furnished classroom. A gymnasium is needed.

The woodworking room which is shared by two teachers and both high schools, is never unoccupied. Built for twenty-four pupils there are classes numbering thirty-six held in it — too many boys for a class in this subject and for one teacher to direct. There should be two shops.

There is no room in the building especially reserved for art work and no longer a special place for sewing. Both these departments must be housed in one room which serves also as a classroom. This is far from satisfactory and work must be done as best it can be under trying conditions. There should be a studio and a sewing room each properly equipped and separate from all other rooms.

Lunch room facilities are inadequate. There is no rest room for ill and underweight children. The medical and dental departments must occupy a teachers' rest room. Some of the cooking classes are now too large for proper accommodation in the kitchen. Each eighth grade class receives instruction once or twice a year at the Public Library by Miss Haskins, the librarian. This helps immeasurably but does not overcome the need for a well-equipped library to which pupils would have constant access and where they would work regularly. The school has no library.

This year, instead of being an elective, general language is required of every 8A pupil, a plan which should make for better adjustment in the ninth grade. Mathematics is now given four times a week instead of five and business training two periods weekly to each eighth grade pupil. Most of the latter work was included in mathematics under the old plan. Now overlapping is eliminated and each pupil recognizes business training as a subject apart, a knowledge which will help him with his electives for grade nine. Instead of being decreased

from five to four periods, work in mathematics has actually been increased to six.

A well-balanced school band was organized the first of January. An exceptional instructor has been found in Mr. Arthur P. Hauck, a graduate of the New England Conservatory of Music, the Ithaca School of Music, and experienced in the organization and conducting of school bands. He is capable of teaching all wind and percussion instruments and spends an entire day at the school. In the morning private instructions are given to all beginners and in the afternoon the entire band has a one-hour lesson. Expenses for lessons are borne entirely by the pupils and the purchase of the large instruments is being financed through the school fund. Drum major work is in charge of Mr. Charles W. Potter. It is hoped that this branch of instrumental music will prove itself worthy of a permanent place in the activities of the school.

The teachers of the school deserve a special word of commendation. It is only because of their loyalty and cooperation at all times that the fine work of the school is accomplished and that the special projects are successful.

Respectfully submitted,

MARY M. DOLAN,
Principal.

REPORT OF THE SENIOR HIGH SCHOOL

The enrollment of the Senior High School, as of December 21, 1934, is as follows:

Grade 9	189
Grade 10	177
Grade 11	167
Grade 12	123
Post Graduates	17
<hr/>	
Total	673

There are 114 separate classes, varying in size from 6 to 42, with the following numerical distribution:

Fewer than 20 in class	23 classes
From 21-25 in class	15 classes
From 26-30 in class	39 classes
From 31-35 in class	33 classes
From 36-40 in class	2 classes
Over 40 in class	2 classes
<hr/>	
Total	114

A few years ago the total enrollment was 685 and there were 115 classes. One small class in Household Arts for Freshman girls has been given up. Other classes are small either because they are composed of pupils taking advanced subjects or because they are overflow classes using small rooms.

Other conditions in the school remain unchanged. The building is being utilized to its fullest capacity and the Lincoln Street building provides for five classes per day in academic subjects in addition to classes in free hand

and mechanical drawing. Six teachers are meeting six classes each per day. The handicaps of the last seven years are with us yet coupled with the problem of how to meet the needs of the increasing number of boys and girls who are motor-minded and have little or no interest in pursuing the traditional high school subjects in accordance with long established methods and objectives. The Plymouth High School is making whatever necessary and proper adjustments it can in order to meet new conditions but the program, though improved, still leaves much to be desired. The obvious remedy is a modern and adequate school plant.

A class of 130 was graduated last June. An unusually large number of them have continued their education. Fourteen have entered colleges, three State Teachers College, four preparatory schools or junior colleges, and five special training schools. Mt. Holyoke, University of New Hampshire, Massachusetts Institute of Technology, Tufts, Oberlin, and other schools of similar type have accepted without question admission certificates based on scholastic records and accompanying recommendations of the principal instead of entrance examinations. The reports that come back to us from these schools demonstrate anew the ability of the Plymouth High School to prepare pupils to carry on college work successfully.

A few changes have been made in the curriculum. Bookkeeping I is omitted this year but will be reintroduced next year as a Junior subject and Bookkeeping II will become a Senior Subject. Business Organization, formerly a full course offered in the Junior year, has been made a half-course given in the Sophomore year. A new half-course in Economic Geography is correlated with it. Advanced General Science, formerly a full course, is now composed of two half courses—one in Physics, and the other in Chemistry.

The offering of so many half courses necessitated a change in the number of ranking periods in order that

the close of ranking period might coincide with the end of the first semester. Therefore, in place of five ranking periods we now have six, each one being approximately six weeks in length. Other reports are made as required to both pupils and parents.

Another important change is in the manner in which scholastic attainment is to be recognized. Our plan, endorsed by the School Committee, is to differentiate between work of such quality that it is worthy of a diploma and that for which a diploma cannot be awarded but which does represent the best effort of the pupil and is therefore worthy of a certificate. This is a revival of the practice in vogue in the school some years ago. The influx of so many pupils in the last few years who do not find academic work agreeable or appealing complicates the situation and we feel that, if the standards of the High School as an educational institution are to be maintained and a diploma is to signify that those standards have been met reasonably well, a distinction must be made. Therefore, after careful consideration of the problem, the faculty recommend that the school diploma be awarded only to those who have earned the required 80 credits by actually passing the various courses with a mark of at least 70%. Certificates shall be awarded to those pupils who fail to gain the 80 credits in the way described above, but do work which, in the opinion of the faculty, represents their best effort and for which they receive the mark X. This means that they receive numerical credit toward a certificate, but are not permitted to continue advanced work in the subject in which the X is received. Receiving an X would not, however, prevent a pupil from receiving the school diploma provided 80 credits are earned in the prescribed manner. All doubtful cases are to be considered by the entire faculty and all decisions will be made by them. Marks of D and F cannot be counted for either a diploma or certificate. These letter grades represent a mark below

70%. The pupil known to be capable of doing passing work but who fails through neglect is not entitled to the certificate. Pupils failing at any time shall not be privileged to make up back work that is more than a month in arrears unless the deficiency is caused by illness or other excellent reasons.

We have had some exceptionally fine assembly programs this year. Some have been financed by the Student Activities Fund, others have been presented by pupils under teacher supervision. The ventilation of our assembly hall is so inadequate and the difficulty of darkening it so great that illustrated lectures or motion pictures are almost out of the question. Consequently many educational programs and opportunities must of necessity be omitted. Twice our school has united with the Junior High School in giving an educational movie at the Old Colony Theatre through the splendid cooperation of the manager, Mr. Paul Kunze.

In spite of short periods and days, we feel that some provision for preparation for the worthy use of leisure should be made by the school. Therefore we are instituting this year a club program, clubs to meet once in two weeks, in school time, under teacher supervision. Requests from the pupils have come for the formation of such clubs, as Aviation, Camera, Classical, Junior Press, International Correspondence, Knitting, Spelling, Sports, Drawing, Harmonica, Dramatic, and others. It is our expectation that these clubs will be very worth-while. They are positively educational in their purpose. The Student Activities Society is sponsoring the plan.

This organization commonly known as "S. A. S." is a revived, reconstructed, improved student association which interests itself in any matter pertaining to the welfare of the school. It is not a student government association but does provide for student participation in those affairs in which the student interest is large and over

which pupils can well be placed in charge. Thus far the "S. A. S." seems to be an increasingly vital factor in the life of the school. They have sponsored the cheering at games, Christmas giving, assemblies, "Ten-Cent-a-Week Plan," and propose issuing a school hand book and adopting a standard ring for the school.

Faculty meetings are being held regularly on the second Thursday of each month and are proving to be exceedingly valuable.

It has been said that a healthy discontent is a good thing. We certainly are not satisfied with things as they are, nevertheless we are not allowing any discouragement to obscure our hope and desire for things as they ought to be. I assure you and all who are interested in the progress of our school that our conscientious efforts to improve its work in every department will continue.

Respectfully submitted,

WAYNE M. SHIPMAN,

Principal.

REPORT OF AMERICANIZATION CLASSES

Classes were opened this present year October 26th. The general work of recruiting was carried on by means of posters, letters, personal solicitation by director and teachers, and best of all by the members of previous classes who urged their friends to attend.

The work is organized to conform with the specifications of the State Board of Education, Department of Adult Alien Education. Ten classes meet in Harris Hall at the Plymouth Cordage Company's Plant at four-fifteen on Mondays, Tuesdays, and Thursdays. Three Classes meet at the Cornish School Building at seven-fifteen o'clock on the same days and two women's classes meet in rooms, kindly supplied us, at the Cordage Kindergarten Building on Tuesdays, Wednesdays, and Thursdays. This makes a total of fifteen classes, meeting for a period of sixty nights.

The attendance this year has been excellent. The men and women who attend are, I believe, deeply appreciative of the opportunities provided for them and when they become naturalized citizens will fulfil their duties as such in a worthy manner.

The State reimburses the Town to the extent of one-half for all money spent in this work. Last year that reimbursement amounted to \$1,385.57.

The conduct of the classes is the same as in previous years. They are divided into Beginners, Intermediates, Citizenship and Advanced. We are, however, very much better graded as to ability of groups working together than ever before.

The teachers are thoroughly interested, sympathetic, and appreciative of the difficulties which the men and

women are meeting. All teachers are certified by the State Office as a result of special training taken to equip them for this type of teaching. During last spring several, who though already certified felt they wished to improve and have the latest methods of procedure, took an advanced course offered in Boston by the State Department.

At the present time the citizen teacher and director are meeting frequently with groups at the State House for discussion of recent changes in naturalization procedure.

In closing, may I express appreciation to a very loyal corps of teachers, to the Plymouth Cordage Company, and to all who have in many ways contributed to the success of these classes.

Respectfully submitted,

WILLIAM I. WHITNEY,

Director.

REPORT OF HEALTH DEPARTMENT

The school work goes on about as usual in spite of the depression which makes more work for the medical department as well as the teaching force. The measles epidemic which had been threatening in December of 1933 reached its height in January when we had 134 cases reported from the Board of Health and 102 in February. In April there seemed to be a renewal of the epidemic with 54 cases reported. It was also thought advisable to abandon the tonsils and adenoids clinic at the Jordan Hospital temporarily, during this time.

During the past year we have been paying special attention to the condition of the hands of the students, not only in regard to cleanliness but especially as to whether they were nail biters or nail pickers.

Several pupils in one room at the Burton School were exposed to whooping cough and we felt that they might be developing the disease. Arrangements were made to have their blood examined. Seven pupils were tested and four were pronounced positive. These four developed whooping cough.

The pre-school examination was done in May and 140 children were examined. About 43 were found with nose and throat defects. Of this number 20 would come under the school tonsil clinic. We tried to do a number of these cases during the summer vacation but with considerable trouble and not great success in numbers as only eight cases were operated upon.

Money was raised in order to send children to the Bailey Health Camp at South Hanson for an eight weeks' stay during the school vacation. They returned home greatly benefited.

During June, histories were filled out for the pupils who were to be examined by Dr. Patterson in September.

On September 9th, Miss Susie Macdonald was taken suddenly ill and has been unable to resume her duties. Until October 1st, we got along as well as possible without a school nurse. Miss Macdonald resigned her position in October and Miss Hilda Swett was appointed in her place.

In October there were 58 pupils x-rayed by the Chadwick Clinic. One new pupil was also tested at the request of the parents. The next month they were examined and all showed some improvement. This work is to be carried on hereafter by the County Hospital and their organization. The sixth, ninth and eleventh grades are to be examined each year.

In December we examined for Miss Welsh at the Junior High School, a special group of about 95 girls whom she wished to consult with the school physician as to how they should be restricted in physical training.

We have given the diphtheria toxoid this year instead of the toxin antitoxin as in previous years on the advice of the State Commissioner of Health and the district health officer. We treated 151 pupils.

While examining the pupils at the Manomet School we found so large a proportion of them underweight that it was decided to start a rest class. Ten cots were moved to the school and the pupils spend most of the non recess resting instead of eating hurriedly and then playing too hard. A splendid result has been shown in the gains the children have made. One case was found to be very suspicious of tuberculosis and was referred to South Hanson Hospital, where she is at present and is improving.

We wish to thank all the teachers and others who have helped us during the past year and cooperated with us in our work.

Respectfully submitted,

HILDA SWETT, R. N.

School Nurse.

L. B. HAYDEN, M. D.

School Physician.

REPORT OF THE ORAL HYGIENE DEPARTMENT AND DENTAL CLINIC

I hereby submit my report of the dental work done in the Plymouth public schools during the year 1934.

Consciously or unconsciously we all watch mouths and teeth.

A beautiful smile enriches those who receive it. It brings cheer to the discouraged, and sunshine to the sad. It is hard to give a wholesome smile if one is in ill health or with decayed or uneven teeth.

The teeth are the supporting structure to the cheeks and lips, when teeth are missing, the face has a shrunk look, also, missing teeth prevent plain speech.

Good teeth are an important factor in the appearance of a child. What is more inspiring than a happy, smiling child with a perfect set of clean teeth?

A sound body means a health body, a healthy body means the normal functioning of every organ. The mouth is the entrance to the digestive system, and unless one has a good sound set of teeth with which to chew his food properly the health and comfort of the individual are effected.

Many adults regret the fact that their mouths were neglected during childhood, and they feel that many troubles in later life could have been avoided by proper attention in their youth.

A great number of people have been handicapped through life by the deformities of irregular and decayed teeth which has handicapped seriously in the business world.

However, it is encouraging to know that the future health, happiness and general usefulness are today being

assured to hundreds of Plymouth school children through the School Dental Clinic and the Oral Hygiene program taught in the schools. This is being carried on with the co-operation of the Plymouth School Department and Board of Health, who should be commended for their farsightedness.

Health is the chief aim of present day education, and is recognized as an objective.

Mouth conditions have always been a large problem in our schools. As a result of a pressing present day need dental hygiene has been developed.

It is necessary to check up each succeeding year on how the child is taking care of his teeth and how the dental work is progressing.

The logical starting point of the work is with the pre-school child.

This year the dentist and hygienist examined 104 pre-school children, 46 of these children had their dental work done before entering school in the fall. The program itself is educational, as the mother is shown all defects, and is urged to take the child to her family dentist before he or she goes to school.

The importance of using the tooth brush is discussed with her, pamphlets on diet and care of the teeth are distributed. She is told that it is as necessary to have the first set of teeth in good condition as the second; that if these first teeth are neglected, extraction is necessary. The result is that the second teeth will come in crooked which will change the facial expression, and, crooked teeth make it difficult for the child to chew his food properly.

When the school dentists made their examination for 1934, of 1862 pupils examined, 316 were found 100%.

Defects are charted and records kept for each patient examined.

We find that in the mouth of the average first grade child about two decayed six year molars (second teeth). These cavities are very often so small that they cannot be seen by the parent. This is the opportune time to have the tooth filled. In grades two through the sixth, we find an average of about four permanent teeth (second teeth) decayed.

In making the examinations the dentist is always looking for mouth conditions which are not normal. Many times the diet of the child is the cause.

It is necessary that a wholesome mixed diet be eaten every day, such as: milk, butter, eggs, fruit and vegetables.

When other things, such as candy, cake, etc. are eaten, they may not actually cause tooth decay but may be crowding out certain foods whose essential elements are necessary for building and repairing strong teeth and healthy gums.

Therefore sweets eaten at the end of a meal are not as harmful because they mix with the other foods after they get into the stomach.

The following will show the progress made in our dental clinic during the past seven years.

Year	Pupils Examined	Needed Repair Work	100% at Time of Exam.	100% mouths in June
1927-1928	1750	1685	55	473
1928-1929	2076	1916	160	616
1929-1930	1992	1851	141	618
1930-1931	1813	1515	303	621
1931-1932	1796	1533	263	627
1932-1933	1862	1517	345	745
1933-1934	1870	1496	374	758

ORAL HYGIENE DEPARTMENT

The aim of the Oral Hygiene teaching program in the schools is good teeth in healthy mouths for every child.

The procedure towards attaining this result is primarily educational, although, correction of defects is a most important objective.

The three great factors for prevention are: health habits, cleanliness and diet.

We must educate the child in the importance of health habits, cleanliness and diet to the extent that the lessons taught may be formed into daily habits.

When the opportunity presents itself the correlation of health with other subjects is practiced.

School health campaigns, special emphasis weeks, assembly programs, exhibits and health films all play a big part in establishing health habits.

A primary unit of work from the Cornish-Burton School was on exhibition at the Massachusetts Dental Convention which was held at the Hotel Statler in Boston, last May. This project represented the lessons taught in the grades during the year.

We feel that the children gained a good deal of knowledge as well as pleasure in making this project. Other interesting phases of work were represented from the Hedge School and the Individual School.

Dental prophylaxis (cleaning the teeth) is important, and is one of the ways by which we try to educate the children to habits of home care of their mouths.

This year 804 children came to the Dental Clinic to have their teeth cleaned. During the process of cleaning the teeth, each child is given individual instructions regarding the home care of the mouth; the importance of getting the tooth-brush in back of the mouth to clean the molar teeth. Also, the necessity of visiting the dentist at least twice a year.

As a follow-up the child is given a letter to take home to his or her parents, stating what has been done and asking their cooperation.

The teachers and principals cooperate 100 per cent in trying to get each child to own a tooth brush.

These brushes are of the proper shape and size for children to use and are sold for a minimum fee of five cents.

It is my desire to thank the School Dentists for their splendid work both in the Clinic and giving generously of their time in their own offices.

As Clinic is held only on Wednesday morning at the Governor Bradford Building, and on Friday morning at the Hedge School, many times emergency cases have to be taken care of by the School Dentists at their own expense.

The reason that our dental hygiene program has been a success and has proven itself outstanding in the State is because we have the whole-hearted cooperation of the superintendent, principals and teachers, local dentists, and the pupils and parents.

*Statistical Report of Dental Clinic and Oral
Hygiene Department*

Number of examinations	1862
Number of children having dental work done by family dentist at time of examination by school dentist	18
Number of children having received dental cer- tificates from family dentist before examina- tion	41
Number of children given dental certificates by school dentist at time of examination	257
Total number of 100% mouths	316
Number of examinations for State survey	89
Number of pre-school examinations	40
Number of fillings in permanent teeth (second teeth)	244

Number of temporary teeth (first teeth) extracted	111
Number of permanent teeth extracted	9
Note—(7 of these extractions were on cases which would normally not be included in the Clinic).	
Number of treatments	37
Number of children discharged at the Clinic (work completed)	93
Amount of money received for fillings and extractions	\$19.40

Oral Hygiene Department

Number of oral hygiene talks in the schools	313
Number of children having a dental prophylaxis	804
Number of pre-school examinations	64
Number of examinations for State survey	77
Amount of money received for dental prophylaxis	\$74.30
Amount of money received for sale of tooth brushes	\$26.12
Total amount of money received at the Dental Clinic	\$119.82

Total miles travelled on school cases for 1934 ..					1514

In addition to the above report, we have done much in a small way to better conditions in the home, by helping the school children through the cooperation of other social agencies, thereby providing clothing and shoes in so far as funds would permit. This enabled pupils to attend school and continue their studies during the most adverse weather conditions.

Respectfully submitted,

RALPH F. MATINZI.

EMPLOYMENT OF MINORS
